27th October 2010

FAO Alexandra Cotton- Planning Officer
Development Management

Dear Alexandra,

Re: The Salvation Army Wombwell – Proposed new single storey store room extension, extension of front elevation G.P. room & associated improvement works at 21, Park Street, Wombwell, Barnsley, S73 0HQ.

Further to our meeting at your offices on Wednesday 20th October 2010 regarding the above, please find enclosed amended plans as discussed.

I hope the attached amended proposals are now more in keeping with the existing building and in line with the local authority's policies for extending and altering existing buildings.

I also wish to confirm my client's reciprocal arrangements they have with their neighbours i.e. St Michael's Catholic Church and Chapel Field Medical Centre regarding car parking arrangements. The Salvation Army as well as using their own share car park use the parking facilities at St Michael's because their services are at different times and they can also use the parking at the medical centre at weekends and evenings.

Finally, these proposals for the Salvation Army building in Wombwell are to not only improve the facilities of the existing church building but importantly are to provide much need community facilities for the wider community of Wombwell , i.e. community drop-in and advice and advice, distribution of food parcel's, parent and toddler groups etc, which are greatly needed in this current economic climate.

Should you have any further queries regarding the application please do not hesitate to contact me.

Thanking you in anticipation.

Yours sincerely,

John Percy.
