<p><small>The architectural drawings presented above are submitted for the purpose of Planning Permission and Building Control procedures. The collection of drawings serves as a preliminary conceptualisation, offering a functional depiction of proposed developments, encompassing essential design elements such as appearance, functional measurements, and technical details. It is imperative that all measurements and technical data provided herein must undergo thorough verification by the Contractor. Any discrepancies or inaccuracies should be resolved and clarified with the Client before commencing construction activities.</small></p> <p><small>It is imperative that the entirety of the project aligns with and complies fully with the prevailing Building Regulations. Compliance of any work is strictly prohibited until appropriate approval has been granted by the relevant Building Regulations authority.</small></p> <p><small>For further consultation and guidance related to your specific project, we strongly recommend seeking advice and direction from your Local Council.</small></p>
