Haywood and Padgett Ltd believe that our business is responsible for operating in a sustainable manner, and we are therefore committed to reducing our environmental impact.

In order to achieve this, Haywood and Padgett Ltd will;

- Comply with the Environmental Protection Act 1990 and all statutory requirements relating to this.
- Continuously improve our environmental performance by increasing the efficient use of resources, such as energy and water usage.
- Prevent pollution and minimise the extent of environmental damage occurring as a result of our operations and activities.
- Establish waste management practices that minimise waste to landfill by segregating waste for reuse or recycling whenever practicable.
- Conduct a risk assessment using a dedicated team to identify areas of concern, e.g. noise/aroma pollution, waste, traffic pollution, water pollution, and put in place appropriate corrective action.
- Ensure our employees and our contractors are aware of our environmental aspirations so that they contribute to the implementation of our policy and objectives.

As Managing Director, I accept the responsibility for ensuring that sufficient personnel and financial resources are available to meet our objectives. All environmental issues will be considered by the Environmental strategy team who will consist of: -

- Myself (Managing Director)
- Paul Kidd (Technical Manager)
- Senior Site Engineer

Wayne Padgett

Managing Director
