In pursuance of its powers under the above-mentioned Act and Regulations the Barnsley Metropolitan Borough Council as the Local Planning Authority hereby grants consent for the proposals the subject of the plan(s) and application registered by the Council on the 07 May 2015 and therein described as:- Removal of 16 trees of mixed species for management including damaged and diseased specimens within woodland off Cote Lane, Thurgoland

Consent is subject to compliance with the following conditions:-

- 1 The proposed tree works should be completed within 2 years of the date of this consent.
Reason: To ensure that adequate notice is given for the works to be inspected and approved by the Local Planning Authority.
- 2 Within the first planting season the 16 trees to be removed shall be replaced by 8 new English Oaks (*Quercus robur*), 2 new Small Leaved Limes (*Tilia cordata*), 2 new Hazel (*Corylus avellana*) and 4 new Hollies (*Ilex aquifolium*). These shall all be planted in appropriate locations in the woodland in the immediate vicinity of the removed trees. No cultivars of the species mentioned above are to be used only the standard native form.

Specification: Heavy standard English Oaks and Small Leaved Lime trees (stem girth 12-14cm) shall be planted and affixed (with flexible tree ties) to a tanalised tree stake (minimum diameter 75mm) at a height of no more than 1m above ground level and pot grown Holly and Hazel to be planted and be at least 1.25-1.5m high at the time of planting.

Signed

Joe Jenkinson
Head of Planning and Building Control

Dated 23 June 2015

In order to aid establishment suitable mulch shall be applied (e.g. semi-composted woodchip to a minimum depth of 75mm) around the tree to a radius of 1m. Trees shall be watered immediately after planting then whenever required to ensure successful establishment. Within two weeks of planting the Local Authority Tree officer shall be informed and invited to inspect the new tree. The new trees shall be subjected to a Tree Preservation Order in replacement of the felled trees. Any tree which fails to become established within 5 years from planting shall be replaced with another tree of the same original specification.

Reason: In the interests of the visual amenities of the locality.

- 3 Not less than five working days' notice of the date of the proposed work shall be given in writing to the Local Planning Authority and the tree surgery shall be carried out to the standards set out in BS3998.

Reason: To ensure the work accords with good arboriculture practice.

Informative(s)

Pursuant to article 31(1)(cc) of the Town and Country Planning (Development Management Procedure) Order 2010 (as amended), the Local Planning Authority have, where possible, made a pre-application advice service available, complied with our Planning Service Charter for Business and otherwise actively engaged with the applicant in dealing with the application.

- 1 Before proceeding with the notified works, you should ensure that you have the permission of the owner, and comply with all other relevant legislation, for example it is an offence to disturb nesting birds, and bat roosts.
- 2 The level of tree removal to be undertaken may require a Forestry Commission felling licence and the applicant will need to make enquiries to ascertain this and comply with the legislation. Permission granted to undertake tree works under a Tree Preservation Order does not mean a felling licence is no longer required where the works involve the removal of over 5 cubic metres of timber during a calendar quarter.

Notes:

If the applicant is aggrieved by the decision of the Local Planning Authority to grant consent subject to conditions, he may appeal to the Secretary of State for the Environment, Transport and Regions in accordance with Section 198 of the Town and Country Planning Act 1990, within 28 days of receipt of this notice. Appeals must be made on a form which is obtainable from The Planning Inspectorate, Room 3/24 Hawk Wind, Temple Quay House, 2 The Square, Temple Quay, Bristol, BS1 6PN.
