

1. This drawing is to be read in conjunction with all relevant Eastwood & Partners drawings prefixed 39094 as well as all relevant BDW Homes planning layouts and house type drawings. 2. The existing levels indicated on this drawing are taken from the topographical survey S8418, dated July 2015 carried out by Haycock and Todd Surveys. 3. Levels adjacent to the site boundaries are to remain as existing unless otherwise stated. Note: For all proposed trees centred in a location within 3.0m of the prospectively adoptable highway; root barrier membranes are to be installed on the tree side along the back edge of the highway boundary and are to extend a minimum of 3.0m in each direction from a point at its intersection with a perpendicular line drawn from the highway boundary to the tree trunk. Where a root barrier on the highway boundary strikes a driveway, footpath or other area of hardstanding within a plot/POS then the remaining length of root barrier should extend back along the edge of the hardstanding into the plot/POS. Root barriers are to extend to a depth of 1000mm		KEY:  Indicates area of dwelling requiring extra facing brickwork. Depth as indicated.  Indicates a flag on edge retainer. Retained height as indicated. Max retained 300mm.  Indicates a Geowall. Retained height as indicated  Indicates a masonry retaining wall. Retained height as indicated.  Indicates an embankment. Max gradient 1 in 2 but typically 1 in 3.	<table><tr><th>REV</th><th>DESCRIPTION</th><th>SIG</th><th>CHK</th><th>DATE</th></tr><tr><td>K</td><td>External works amended to suit clients comments.</td><td>RJ</td><td>CH</td><td>11.12.19</td></tr><tr><td>L</td><td>Updated to suit latest site layout and clients mark-ups.
