

NOTES

- Diversion of the existing foul sewer requires the consent of Yorkshire Water.
- Connection to public sewers requires the approval of Yorkshire Water.
- Work within the highway requires the consent of Yorkshire Council.
- Adoptable sewer works all to be to Yorkshire Water requirements.
- All highway works to be to BMBC requirements.
- This drainage strategy shows how this development site can be drained successfully. However, it requires the consent of the Local Planning Authority, The Lead Local Flood Authority and Yorkshire Water before it is constructed.
- The following safety hazards remain after design and should be considered during construction
 - The sewer connection(s) may be at depth.
 - Proposed sewers will be at depth and require excavation.
 - Construction work close to a public highway (road and footway).
 - Utilities exist within the footway crossing area to the site.
 - Utilities are also likely to exist in the -footway/verge/highway/on site.
