

On 1 October 2011, the responsibility for most private sewers and lateral drains passed to the water utility companies. Most of these sewers and lateral drains are not shown on existing maps. As development on or around public sewers and public drains is controlled by Yorkshire Water, you are advised to consult with them before starting any work that you understand may include a new drainage connection or involves building over or within 3 metres of a public drain or sewer. For further information please contact Yorkshire Water Services 0345 120 8482 technical.sewerage@yorkshirewater.co.uk This is a separate requirement to the Planning and Building Control regulations
