1 INTRODUCTION

1.1 Purpose of Report

1.1.1 RPS is appointed by XPO Logistics Inc as highway and traffic consultants to produce a Framework Travel Plan for their site at the ASOS (XPO Logistics) distribution centre on the eastern side of the Houghton Main Colliery Roundabout on A6195 Park Spring Road, Barnsley.

1.1.2 This Framework (or draft) Travel Plan is a requirement of the Barnsley Metropolitan Borough Council (BMBC) planning permission for a new carpark at the site (2017/0782) under condition 10 that will both address the operational needs of ASOS and prevent overspill onto the public highway.

Prior to the commencement of use of the car park a draft Travel Plan shall be submitted to and approved in writing by the Local Planning Authority. The plan shall indicate measures that will be put in place to encourage sustainable travel and travel by modes other than the private car, including the potential for cycle spaces and the installation of Electric Vehicle Charging Points, and allow for regular reporting and monitoring to be undertaken. Subsequently, within six months of the site becoming operational, a detailed travel plan shall be submitted to the Local Planning Authority and once approved, it shall be fully implemented and retained as such thereafter
Reason: In the interest of promoting use of public transport, in accordance with Core Strategy Policy CSP 25.

1.1.3 The key objective of this Travel Plan is as follows:

> **To assist in limiting the impact that the development has on the local highway network and environment by minimising the associated single car occupancy usage and having the most effective and meaningful range of sustainable travel measures for staff and visitors to use.**

1.1.4 The core principle behind completing a Travel Plan is to meet the above objective by implementing a suite of measures that will promote the use of, and support staff in using alternative modes of transport to and from the ASOS Barnsley site such as car sharing, cycling, walking or taxi use. Careful monitoring of the existing delivery pattern should also be in place and if there are any alterations required, then this would be updated as necessary.

1.2 Guidance

1.2.1 This Travel Plan has been prepared in accordance with the following range of established guidance:

- Department for Transport (DfT) 'The Essential Guide to Travel Planning' (2007);
- Department for Transport (DfT) 'Delivering Travel Plans through the Planning Process' (2009);
- IHT publication 'Providing for Journeys on Foot' (2000);

- Barnsley Metropolitan Borough Council (BMBC) Air Quality and Emissions Good Practice Planning Guidance – Appendix 5 Travel Planning Guidance (September 2014); and
- Core Principle 4 'Promoting Sustainable Transport' within the National Planning Policy Framework (NPPF).

1.3 Benefits of Sustainable Travel

1.3.1 Sustainable travel modes (walking, cycling, public transport and car sharing) not only offer benefits to greater society (local and global), they also offer significant benefits to the individual in terms of Health, Wealth, and the Environment.

1.3.2 In terms of health, it is widely recognised by the Department of Health (www.dh.gov.uk), National Health Service, etc., that obesity is a key risk factor for a number of conditions including heart disease, stroke, some cancers and type-2 diabetes. In addition to the physical health problems caused by obesity, there can be a reduction in people's overall quality of life, which can lead to additional mental health problems. Lack of physical activity is seen as a major factor in modern lifestyles that contributes to these health problems and walking and cycling in particular may be part of the answer. Use of public transport and car sharing can also involve a walk or cycle. Furthermore, sustainable transport has an important role to play in social inclusion; it enables a greater proportion of the population to afford travel to see friends and relatives.

1.3.3 Sustainable transport modes are relatively inexpensive modes of transport compared to the car: walking costs nothing other than the cost of a good pair of shoes and the initial outlay for a bicycle can be modest also, less than a week's wages for most people. Under current national policy vehicle excise duty (VED) is paid relative to the environmental impact of a vehicle and for bicycles this is £0; fuel costs for walking and cycling are almost non-existent and maintenance costs of cycling are limited also and almost non-existent for walking. Compare this to a car which, can cost tens of thousands to purchase and between £2,000 and £11,000 (VED and Insurance, etc) before a wheel is turned and over 20-30p per mile there after (fuel, maintenance and parking, etc) (The AA, 2010).

1.3.4 Car sharing however may spread the costs between the group and public transport use involves no setup and standing charges to the individual.

1.3.5 Beyond the personal costs however, active travel also has a significant role in the wider economy. For instance as previously suggested, people partaking in active travel are generally fitter members of the population and therefore are less of a drain on the economy and are more likely to contribute towards it; it is estimated that chronic heart disease alone costs the UK economy about £10 billion, based on 2000 prices (Cavill & Davis, 2007) due to hospital treatment, and days lost to illness and death, etc.

1.3.6 People partaking in sustainable travel are also more likely to be relaxed and alert when they reach their destination.

1.3.7 Furthermore, sustainable travel has many positive externalities, for example, theoretically the more people that travel sustainably, are less people contributing to road congestion, congestion may result in unreliable journey times for motorised vehicle times and congestion may also be limiting economic activity in some areas.

1.3.8 Walking and cycling are particularly benign forms of transport in terms of its impact upon the environment and use of public transport and car sharing are also relatively benign compared to the single occupancy vehicles. Walking and cycling, results in little or no pollution in terms of noise or emissions and once more the externalities of cycling can result in a reduction of congestion and therefore pollution at both local and global levels.

1.3.9 Use of Public Transport and Car Sharing spreads out the impact of the petrol/diesel engine however, across more individuals and can also contribute to reducing congestion; quite simply 2-64 people in the space of 1-3 single occupancy vehicles.

2 SITE ASSESMENT

2.1 General Locale

2.1.1 The existing ASOS (XPO Logistics), Barnsley site is located as the crow flies 6.4km east of Barnsley or 11-13km by road and adjacent to the A6195 Park Spring Road. Access is via the Houghton Main Colliery Roundabout. The ASOS building is also located in close proximity to several villages with Grimethorpe 3km north on Park Spring Road, Great Houghton at 2.8km via Chapel Lane and the Sandhill Golf Club or 4km by road, Darfield at 4km by road, Thurnscoe at 5.2km by road and Goldthorpe 5.6km via the A635 or 6.8km via Thurnscoe. The location of the ASOS building is shown in **Figure 1**.

Figure 1: Location Plan

2.1.2 The current site carpark which supports 553 cars in total (including 12 disabled) is located to the north side of the ASOS building as shown in **Figure 2**.

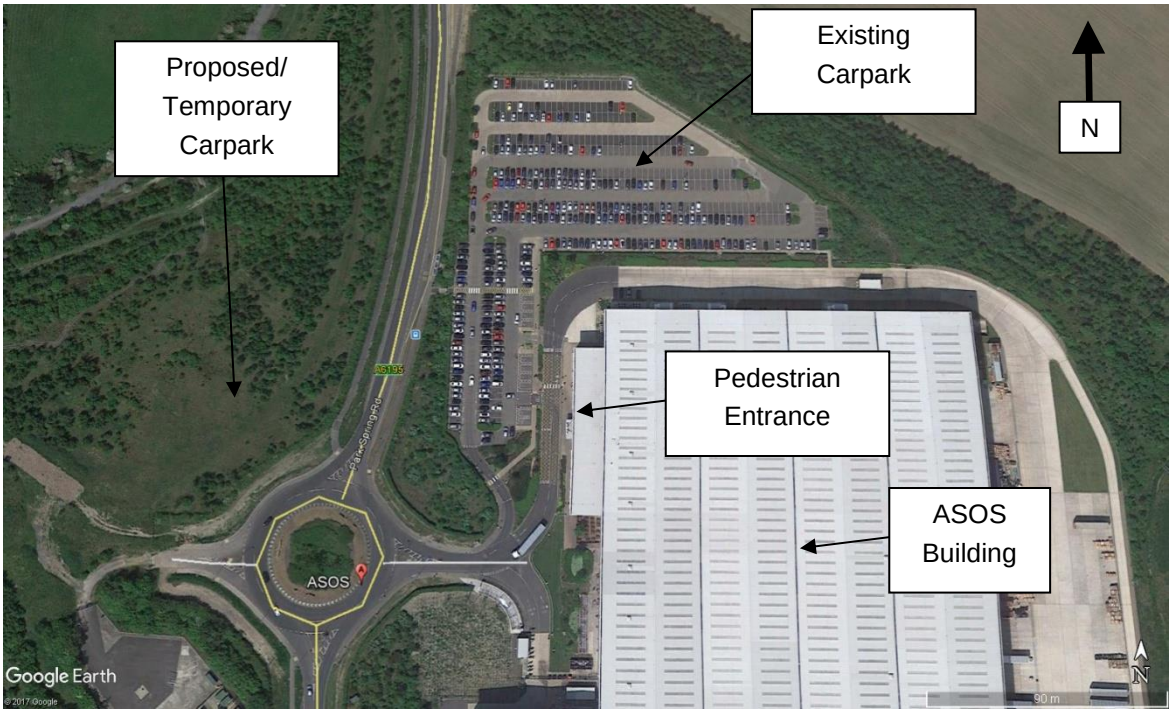

Figure 2: Site Layout

2.2 Existing Pedestrian Provision

2.2.1 Walking is widely regarded as the most sustainable form of transport and is considered appropriate for journeys up to 2.5km (30 minutes) in length. Furthermore, walking is particularly suited as an alternative to car trips of under 2km (25 minutes) and capable of integration with all forms of transport for journeys further afield.

2.2.2 Immediate pedestrian demands are served by 2m wide footways alongside Park Spring Road which lead directly to the nearest bus stops. There is also a flight of steps from the ASOS car park that ensures the southbound bus stop (**Photograph 1**) is only 100m (1 & ¼ minutes) walk from the ASOS offices.

Photograph 1 – Park Spring Road Southbound Bus Stop

2.2.3 The corresponding northbound bus stop (**Photograph 2**) is 250m (3 minutes) walk from the ASOS offices and located immediately south of the Houghton Main Colliery Roundabout (ASOS access) roundabout on the western (Barnsley) side of Park Spring Road.

Photograph 2 – Park Spring Road Northbound Bus Stop

2.2.4 Pedestrian movements south of the ASOS access roundabout are served by 2-3m wide and well surfaced footway on the western (Barnsley) side of Park Spring Road which in most parts is separated from the carriageway by a 1m wide verge.

2.2.5 Within the comfortable walking threshold, a small (0.5m wide, 250m long) unmade footpath 900m (10-11 minutes) walk south of the ASOS offices (**Photograph 3**) facilitates access to the small village of Little Haughton (2km, 25 minutes walk). A further bus stop is located at the eastern (village) end of the footpath 1.2km (15 minutes) walk from the ASOS offices.

Photograph 3 – Footpath to Little Haughton

2.2.6 A shorter (40m long) and slightly wider unmade footpath (1-2 m wide) (**Photograph 4**) opposite the aforementioned footpath on the western (Barnsley) side of Park Spring Road facilitates access to Little Haughton via Ings Lane. Whilst this is a 200m (2 - 3 minutes) detour it may be considered by some as a more preferable route as pedestrian facilities are located on the western side of Park Spring Road and it offers a wider and mostly bound surface and a partially streetlit route.

Photograph 4 – Footpath to Ings Lane

2.2.7 Whilst Little Houghton is the only residential area within the comfortable walking threshold, it is noted that the previously mentioned villages particularly Grimethorpe and Great Houghton, are just beyond the threshold and may be considered walkable by some and there is a good network of footways and footpaths connecting these destinations.

2.3 Existing Cycle Provision

2.3.1 As with walking, cycling also has the potential to substitute for short car trips, further facilitating sustainable travel. Cycling is particularly suitable for trips under five kilometres and trips of 30-40 minutes are also considered acceptable for commuting purposes. Cycling can link to public transport facilitating sustainable journeys further afield.

2.3.2 Although not signed as such, road markings at the entry to the 2.5-4m wide path just north of the southbound bus stop which runs parallel to Park Spring Road shown in **Photograph 1** and cycle some route planning web sites indicate this as an off road cycle route (**Photograph 5**) to the larger village of Grimethorpe (3km 10 minutes cycle to the north of the site access).

Photograph 5 – Path to Grimethorpe

2.3.3 There is also evidence that cyclists use the 3m wide and well surfaced footway on the western (Barnsley) side of Park Spring Road south of the ASOS access roundabout.

2.3.4 Other residential areas are also within comfortable cycling distance. For example: Great Houghton at 2.8km (10.5 minutes) via Chapel Lane and the Sandhill Golf Club or 4km (12 minutes) by road; Darfield at 4km (12 minutes) by road; Thurnscoe at 5.2km (15 minutes) by road and Goldthorpe 5.6km (16-17 minutes) via the A635 or 6.8km (20 minutes) via Thurnscoe.

2.3.5 The nearest rail station to the ASOS offices is located in Thurnscoe and in the main can be reached by relatively quiet roads. A 900m section of the A6195 Park Spring Road to the short path to Ings Lane, Little Houghton, Middlecliffe, Billingley Lane, Houghton Road to Thurnscore and the short path can be avoided by using the 2km section of the A6195 Park Spring Road to its roundabout with Rothertham Road (Middlecliffe).

2.3.6 The town of Barnsley at 11-13km (30-40 minutes) cycle at a slow pace is also considered within an acceptable commuting cycling distance. Additional Rail national services are available in the city.

2.3.7 Barnsley rail station is 14km (42 minutes) from the site via a section of the National Cycle Network (NCN) Route 62/67 which is off road entirely (following a disused railway line) from just south of Broomhill (north Brampton) to the Pontefract Road in Barnsley. The NCN Route 62/67 route map is reproduced in **Figure 2**.

Figure 3: NCN Route 62/67

2.3.8 The station may also be reached more directly (in 12km) by the A635 Doncaster Road however this route would only be used by the most experienced of commuter cyclist.

2.3.9 Subject to external development it is also considered there is longer term potential for the disused rail line directly opposite the ASOS site to be opened to cyclists, establishing a 8.6km (25 minutes) cycle route to Barnsley rail station.

2.3.10 There are also several other villages and towns within this acceptable commuting cycling distance of the ASOS offices and there is evidence that cyclist use the comprehensive networks of footways and footpath to travel between them.

2.3.11 To encourage the cycling mode among their staff (**Photograph 6**) ASOS currently provide 50 covered and secure bike racks and showering, changing and locker facilities at their site.

Photograph 6 – Secure Cycle Parking

2.4 Existing Public Transport Provision

Bus Services

2.4.1 Bus stops and bus services are available almost immediately to the staff of ASOS with a northbound bus stop being located at the bottom of a flight of steps from the ASOS car park, 100m (1 & ¼ minutes) walk from the office with the corresponding southbound bus stop just 250m (3 minutes) walk from the ASOS offices.

2.4.2 These stops are served by the numbers 26/27, 28/C, 30a, 208, 216 and 219/A from Stagecoach. Route maps and timetables for these services (downloaded 18 August 2016) can be found in **Appendix A** and are summarised in **Table 1**.

Service	Route	General Frequency	Journey Times	
26/ 27	**Barnsley Interchange - Wombwell** Via Hoyle Mill, Cundy Cross Lundwood, Cudworth, Shafton , Brierley, Grimethorpe, ASOS, Darfield, Low Valley (26 stops in Great Houghton and Little Houghton)	M-F (05:54-23:38) Every 20-40 mins Post 17:15 Services do not stop in G&L Houghton	Barnsley Lundwood Grimethorpe Darfield Wombwell	37 mins 30 mins 5-13 mins 8/18 mins 16/26mins
28/ 28C	**Barnsley Interchange - Pontefract Bus Stn** Via /hoyle Mill, Cundy Cross, Lundwood, Cudworth, Shafton, ASOS, Grimethorpe, Brierley, Hemsworth, Kinsley, Fitzwilliam, Ackworth Moor Top, High Ackworth, Featherstone, Purston Jaglin	M-F (05:36-23:37) Hourly	Barnsley Lundwood Cudworth Grimethorpe Hemsworth Pontefract	25 mins 17 mins 12 mins 5-11 mins 26 mins 58 mins
30a	**Barnsley Interchange - Grimethorpe** Via Hoyle Mill, Cundy Cross, Lundwood, Cudworth, Shafton, ASOS	M-F 21:47 & 22:47 SB (From City) 07:13, 22:11 & 23:11 NB (To City)	Barnsley Cudworth Grimethorpe	25 mins 12 mins 6-12 mins
208	**Rotherham - Grimethorpe** Via Parkgate, Rawmarsh, Warren Vale, Swinton, Alwick uopm Dearne, Manvers, Bolton Upon Dearne, Mexborough, Highgate, Billingley, ASOS	3 per day in each direction	Rotherham Swinton Goldthorpe Grimethorpe	50 mins 35 mins 15 mins 6 mins
216	**Goldthorpe - Girmethorpe** Via Highgate, Thurnscoe, Great Houghton, Middlecliffe, ASOS	One Per Day (14:43 WB and 15:10 EB)	Goldthorpe Thurnscoe Midleliffe Grimethorpe	18 mins 10 mins 3 mins 7 mins
219/A	**Barnsley - Doncaster** Via Kendray, Stairfoot, Ardley, Darfiel, ASOS, Middlecliffe, Great Houghton, Thurnscoe, Goldthorpe, Barnburgh, Harlington, Barnburgh, High Melton, Spotborough	Two Per Day in each direction	Barnsley Stairfoot Ardlesy Great Houghton High Melton Doncaster	27 mins 20 mins 17 mins 9 mins 42 mins 1h 8 mins

Table 1: Local Bus Services

2.4.3 Further information including journey planning and live departures (Real Time Passenger Information) both web based and smart phone application based can be found at:

http://www.travelsouthyorkshire.com

Rail Services

2.4.4 The nearest rail station to the ASOS offices is in Thurnscoe at 5.2km (15 minutes) cycle on mainly relatively quiet roads. The station is located on the Leeds to Sheffield 'Metro' line, with the franchise currently being operated by Northern Rail. The 'Metro' time table down loaded 15 May 2017 in **Appendix B**.

2.4.5 Additional national rail services are available at Barnsley rail station which is a 14km (42 minutes) from the site via a section of the National Cycle Network (NCN) Route 62/67 which is off road

entirely (following a disused railway line) from just south of Broomhill (north Brampton) to the Pontefract Road in Barnsley.

2.4.6 Details of all metro and national rail services can also be found on the Travel South Yorkshire web site.

http://www.travelsouthyorkshire.com

2.5 Existing Road Network

2.5.1 Access to the ASOS site is from Houghton Main Colliery roundabout, a four arm roundabout (only 3 arms are currently trafficked) with the A6195 Park Spring Road. The site access is subject to a 30mph speed limit.

2.5.2 The A6195 Park Spring Road is a single carriageway road subject to national speed limit. The road is of relatively recent construction, is of a high standard, 7.5m wide with 1m hard shoulders and generous footway provision and benefits of street lighting in the vicinity of the ASOS site. The route is a bus corridor with typical service provision of three buses per hour in each direction during the day.

2.5.3 To the north, the A6195 Park Spring Road provides access to Grimethorpe approximately 3km from the site and connections to other settlements.

2.5.4 2km south of the ASOS site roundabout the A6195 Park Spring Road connects with the B6273 which provides road connections to Middlecliffe, Little Houghton, Great Houghton and Thurnscoe etc.

2.5.5 400m south of this roundabout the A6195 connects with the A635 Doncaster Road at another roundabout. The Doncaster Road provides a direct route to Barnsley City Centre (11km) and several other settlements.

2.5.6 The A6195 continues south for access to further settlements and links with the M1 at Junction 36 around 13km from the site.

2.6 Accessibility Summary

2.6.1 Whilst the ASOS site is relatively isolated for access by foot as evidenced in the staff travel survey, with 0.7% of staff walking to work, the site is well linked by bus and within cycling distance of significant settlements and rail stations. Furthermore, provision by ASOS of secure cycle storage showering, changing locker provision, promotion of car share schemes and the cycle to work scheme and current car parking levels are positively influencing the modal split of employees. This is evidenced by only 51% of staff driving to work compared to the 2011 Census observed 71% car usage in the surrounding area; demonstrating the sustainable travel behaviour of the ASOS operations.

3 TRAVEL PLAN RESPONSIBILITIES

3.1 Local Planning Authority

3.1.1 The local planning authority (LPA) is responsible for determining the planning application. In this context the LPA is responsible for discharging the planning conditions/obligations.

3.2 County Council

3.2.1 The County Council (CC) should be responsible for determining with the developer the most appropriate measures and/ or outcomes that form part of the Travel Plan and be responsible for future monitoring of the Plan. The County Council's role is to provide advice to the LPA and the developer on all future reviews of the Travel Plan.

3.3 Unitary Authority

3.3.1 Barnsley Metropolitan Borough Council (BMBC) is a Unitary Authority and as such carries out the roles of both the Local and County Councils.

3.4 Developer/Occupier(s)

3.4.1 Where aims and or targets are set out in a TP it is the responsibility of the developer to provide a Travel Plan Co-ordinator (TPC). A TPC could be from within the Company and be responsible for promoting and implementing the measures associated with the plan, and ensure that all survey work required for monitoring is completed at the appropriate time. It should be noted that the appointment of a TPC need not be a new appointment but may be a matter of extending the job profile of an existing employee.

3.4.2 The current occupiers ASOS will be required, at their own expense, to report the progress in implementing the plan and results of surveys of the changes in movements and travel choice behaviour of travellers to the site. The workings of the Travel Plan should be reviewed at least annually. The organisation will be required to submit via its Travel Plan Co-ordinator, a written report to the Unitary Authority (BMBC) within an agreed period after each monitoring date.

3.4.3 Additionally, on any specific target date mentioned in the approved Travel Plan, the organisation should supply to the authority some evidence of achievement (or else reasons for the variance and proposed corrective action). Any revision to the Travel Plan required as a result of monitoring should be done in agreement with the authority involved and clearly recorded as an agreed amendment.

3.5 Travel Plan Co-ordinator

3.5.1 The TPC will be responsible for ensuring that monitoring is undertaken, and carried out at times, that are representative of the typical day-to-day travel characteristics of the site. The TPC needs to be of sufficient seniority to influence staff travel behaviour and be able to report directly to senior management on the Travel Plan. The role of the TPC will include some or all of the following:

- To promote and encourage the use of modes other than the car, including publicity;

- Ensure that relevant information is provided to all intended users of the Travel Plan and that information is clearly displayed on the notice boards/IT and is kept up-to-date;
- Arrange and record surveys of car park usage at intervals set out in the Travel Plan;
- Arrange and record the level of on-street parking arising as a consequence of the development;
- Survey and record the level of usage of cycle stands at intervals set out in the Travel Plan to establish potential need for additional facilities;
- Monitor demand for any additional bus facilities, including company bus facilities;
- Maintain records of car sharing arrangements;
- Seek regular feedback from local bus operators to establish levels of demand for bus services and any potential for improved services;
- Arrange for a travel survey to be undertaken of all staff on the site, identifying both travel needs and current travel modes at least annually;
- Liaise with public transport operators and offices of the planning and highway authorities and arrange regular meetings with all interested parties;
- Organise workshops and induction seminars to provide information for existing and new staff; and
- Update computer software appropriately.

4 TARGETS AND INDICATORS

4.1.1 Best practice in the area of TPs requires that clear targets should be set. Targets can only be set in relation to local circumstances. They should be challenging but realistic, and will depend on existing patterns of travel behaviour, local geography, local transport infrastructure, local public transport and the availability of parking on and in the near vicinity of the site.

4.1.2 These Targets therefore should be 'SMART' - specific, measurable, achievable, realistic and time-related. They may be phased year on year and can be by 'aim' type (e.g. percentage using non-car modes by….) or 'action' type (e.g. appoint a travel co-ordinator by….).

4.1.3 The previously presented objectives can be broken down into 'Outputs' and 'Outcomes', Examples of which are shown below:

Outputs

- The cycle parking spaces are provided initially will be carefully monitored and specific targets identified if necessary; ie 'x' no. of additional cycle stands to be provided by (date');
- the level of car sharing;
- the provision of travel information to staff.

Outcomes

- 'the proportion of journey-to-work arrivals in single occupancy cars will be kept below x%';
- % increase in cycle use;
- % increase in public transport use;
- % increase in car sharing;
- % employee trips eliminated through home working;
- similarly improving the modal share of those visiting the site;
- a reduction in the number of vehicles entering the site; and
- avoidance of on-street parking on surrounding roads.

4.1.4 The agreed 2012 Traffic Statement for the expansion of the ASOS warehouse summarised a travel survey of 600 of the 682 staff on site. This demonstrated that travel behaviour was reasonably sustainable with only 51% of the staff driving to the site. The summary results are reproduced in **Table 2**.

Mode	
Walk	0.7%
Cycle	1.5%
Bus	13.3%
Motorcycle	2.5%
Car Passenger	17.6%
Dropped Off	11.2%
Car Driver	51.0%
Unknown	2.2%

Table 2: Site Modal Split

4.1.5 When compared with the 2011 census for the surrounding area where 71% of journeys were by private car it is clear that there does not appear to be great scope to improve on this relatively excellent level of sustainability demonstrated at the ASOS site. None-the-less, whilst an initial target would be to maintain this excellent level of sustainable travel, it is considered that an opportunity may be possible to reduce the driver mode share to below 50% through increase of car sharing and other sustainable modes.

4.1.6 Hence a 5% modal share reduction in driver trips within 5 years through a 4% increase in the car sharing and a 1% increase in other sustainable modes is considered a SMART target.

4.1.7 Initial targets would be subject to continuous review through the travel plan process and measures would be adjusted appropriately to ensure they are Achievable and Realistic.

5 ESTABLISHING BASELINE (TRAVEL SURVEYS)

5.1.1 Whilst the previous staff travel survey is seen as a useful 'baseline' with regards to modal split it is important to establish a 'baseline' that determines the travel patterns of staff and visitors to the site currently and identify the reasons behind their current decision making and propensity to change in order to update strengthen the previously targets and ensure they are realistic and guarantee the successful delivery of the plan. For example the assessment of the results of this survey would lead on to the choice of the measures likely to be the most effective.

5.1.2 The survey should be tailored to the site in question and should gather the following as a minimum:

- Current regular travel mode;
- Alternative modes used and frequency;
- Distance and time of commute;
- Reasons for choice of mode; and
- Measures that may encourage modal shift.

5.1.3 For new developments this should be carried out within six months of opening which is a requirement of condition 10; however as this is an existing business (ASOS) there may be an opportunity to accelerate this and an initial modal split baseline has been established.

5.1.4 An example travel survey is contained in **Appendix C**.

6 SUSTAINABLE TRAVEL MEASURES

6.1.1 In order to reach the objective of reducing single car occupancy vehicle trips, etc measures will be implemented to raise awareness of sustainable transport issues and to encourage staff and visitors to use alternative modes of travel to access the site.

6.1.2 A TP therefore should have 'sticks' as well as 'carrots' to bring about the required change and the following measures may be considered.

6.2 Hard Measures

6.2.1 These include the physical off-site and on-site infrastructure works required to provide safe and convenient sustainable transport links.

6.2.2 Typical off-site measures that could be secured either by Grampian condition or as a capital contribution secured in a S106 will include:

- foot/cycle paths to link the external network of foot/cycle paths;
- junction improvements;

6.2.3 At present to encourage car sharing ASOS offer those who car share priority parking in dedicated spaces.

6.2.4 All developments should be considered in the context of the Local Transport Plan (LTP) local area strategies. This will ensure a co-ordination between proposals emerging from land use proposals and those proposals for public transport, cycling and walking proposals in the LTP.

6.3 Soft Measures

6.3.1 These comprise of a number of different measures that serve to encourage a modal shift from single car occupancy journeys to more sustainable forms of travel.

6.3.2 This element of the TP will only be effective if the plan has been properly considered, is realistic in what it attempts to achieve and has the commitment and support of both the management and employees of the company.

6.3.3 Although the strategy selected will depend on a range of factors it will typically include a variety of measures relating to:

- encouraging cycling;
- encouraging walking;
- encouraging use of public transport;
- encouraging car sharing;
- a car parking strategy to minimise car use.

6.3.4 Currently ASOS host the occasional raffles for car sharers to promote its use.

6.4 Typical Measures

6.4.1 Although not limited to, **Table 3** outlines some typical measures.

Measure	Comments
Promotion of sustainable transport benefits	Primarily through the issue of the Travel Plan to future occupants/staff, and later updates as they arise, information will be provided on the positive effects of choosing smarter travel choices for journeys to and from the site. This will include general information on the TP, the health benefits of walking and cycling; and the financial and environmental benefits of choosing alternative modes of transport to the car for both the individual and greater population.
Personalised Travel Plans (PTP)	Similar to the above but tailoring a travel plan to an individual's needs.
Journey Planning & Live Travel Information	Integral to the above promotion of www.travelsouthyorkshire.com for journey planning & live travel information.
Cycle to Work Scheme	Tax free loans to buy bikes and cycling equipment.
Discounted Seasons Tickets	Enter into negotiations with public transport operators in the area to seek discounts for those who regularly use public transport as a means of travel. Look at the use of the local bus service in greater detail.
Bus Stop Upgrades	Upgrade of the local bus stops, e.g the provision of bus shelters.
Carfree days/weeks/ Promotions	A series of onsite events to encourage individuals to travel by sustainable means, i.e. Cycle to Work Week, Bike Breakfast, etc.
Local Car Sharing Database	Occupiers will be directed to the existing on-line car-sharing database that applies to the local area. https://liftshare.com/uk/community/southyorkshire ASOS may also set up and promote a specific Liftshare database bespoke to their Barnsley site.
Pool Cars	Cars available on site to essential user, thus avoiding the need to drive to the site on occasion when the car is not required.
Home Working	The ability for some staff to work from home on certain days, reducing their need to travel.
Video Conferencing	Reducing the need for employees to travel of site.
Cycle parking and storage/showering facilities	Provision for cycle storage within the design and layout of the site in accordance with local standards and provision of storage (lockers) and showers.

Development layout	A site layout that gives priority access to pedestrians, cyclists and prime parking provision for car sharers and pool car users and where appropriate.
Car Park Management	• Allocating a larger proportion of the car park to car sharers only; • Charging Single Occupancy Vehicles (SOV's); • Electric Vehicle Charging Points; • Further rewards for car sharers;

Table 3: Sustainable Travel Plan Measures

7 IMPLEMENTATION, MONITORING AND REVIEW

7.1.1 It is proposed that the finalised Travel Plan will be implemented in accordance with **Table 4**. This sets out specific timescales relative to the date on which the site is first occupied:

Timescale Relative to Date of INITIAL Occupation / Operation	Measures / Tasks to be Implemented
0 – 6 months	▪ Appoint Travel Coordinator ▪ Undertake Initial Staff Travel Survey ▪ Set initial measures and targets ▪ Issue Travel Plan to BMBC for approval
6 - 12 months	▪ Fully implement all measures outlined in Travel Plan ▪ Provide BMBC with details of measures as they are implemented
12 months	▪ First monitoring of Travel Plan
24 months	▪ Subsequent monitoring of Travel Plan
36 months	▪ Subsequent monitoring of Travel Plan
48 months	▪ Subsequent monitoring of Travel Plan
60, 72, 84, 96, 108 & 120 months	▪ Subsequent monitoring of Travel Plan
3 yearly intervals	▪ Continued monitoring of Travel Plan

Table 4: Implementation programme of Travel Plan

7.2 Marketing

7.2.1 Good practice guidance contained in the document 'The Essential Guide to Travel Planning' published by the Department for Transport should be consulted in this regard together with other recognised guidance documents.

7.3 Monitoring

7.3.1 The finalised Travel Plan will then be monitored as set out in the following **Table 5**, which will be relative to the initial date of implementation of the Agreed Travel Plan(s).

Timescale After Date of FULL Occupation / Operation	Monitoring Tasks to be Undertaken
1 year	▪ *Undertake Monitoring Staff Travel Survey* ▪ *Produce Travel Plan Review Report* ▪ *Issue Review Report to BMBC* ▪ *Implement additional measures if required*
2 years	▪ *Undertake Monitoring Staff Travel Survey* ▪ *Produce Travel Plan Review Report* ▪ *Issue Review Report to BMBC* ▪ *Implement additional measures if required*
3 years	▪ *Undertake Monitoring Staff Travel Survey* ▪ *Produce Travel Plan Review Report* ▪ *Issue Review Report to CBC and HE* ▪ *Implement additional measures if required*
4 years	▪ *Undertake Monitoring Staff Travel Survey* ▪ *Produce Travel Plan Review Report* ▪ *Issue Review Report to BMBC* ▪ *Implement additional measures if required*
5 years	▪ *Undertake Monitoring Staff Travel Survey* ▪ *Produce Travel Plan Review Report* ▪ *Issue Review Report to BMBC* ▪ *Implement additional measures if required*
Yearly intervals (up to 10 years after full occupation)	▪ *Undertake Monitoring Staff Travel Survey* ▪ *Produce Travel Plan Review Report* ▪ *Issue Review Report to BMBC* ▪ *Implement additional measures if required such as transferring a proportion of parking spaces to car share spaces, etc. Such additional measures will be the responsibility, and at the discretion, of the TC.*
3 yearly intervals	▪ *Undertake Monitoring Staff Travel Survey* ▪ *Produce Travel Plan Review Report* ▪ *Issue Review Report to BMBC* ▪ *Implement additional measures if required such as transferring a proportion of parking spaces to car share spaces, etc. Such additional measures will be the responsibility, and at the discretion, of the TC.*

Table 5: Monitoring programme of Travel Plan

7.4 Handover of Plan

7.4.1 Handover of the Travel Plan (TP) to the Travel Plan Co-ordinator (TPC) will occur once the plan has been approved by BMBC. At this point the named TPC will assume formal responsibility for the TP as a living document and begin to implement the measures outlined.

7.4.2 When a new TPC is appointed the TP is to be provided to the replacement TPC and the document is to be updated with the new TPC details. The updated TP will be passed to BMBC for their records.

8 SECURING AND ENFORCING

8.1.1 Via the Travel Plan Co-ordinator (TPC) discussions will be required between ASOS, Barnsley and BMBC to ascertain any further measures necessary notwithstanding those already implemented as part of the S106 Agreement completed as part of the planning permission. Once agreement has been made on the post occupation travel needs, implementation of any these measures will be implemented by the TPC.

8.1.2 By means of the S106 Agreement signed between BMBC, ASOS Barnsley and relevant other parties, BMBC has secured the TP and its enforcement shall be monitored by means of the Travel Plan Monitoring Reports.

APPENDICES

Appendix A: Bus Information

Appendix B: Rail Information

Appendix C: Example Travel Survey

Appendix A: Bus Information

Travel South Yorkshire

Bus service(s)

26 27 X26 X27

Valid from: 15 May 2016

Areas served

Barnsley
Shafton
Brierley
Grimethorpe
Middlecliffe (X26)
Great Houghton (X26)
Little Houghton (X26)
Goldthorpe (X27)
Darfield (26, X26)
Wombwell (26, X26)

Places on the route

Barnsley Interchange
Barnsley FC

What's changed

Services 26 & 27 - Changes will be made to the times.

Services X26 & X27 - The timing point at Brierley will be amended to Regina Crescent. The timetable is also revised at peak times with increased running time to improve punctuality.

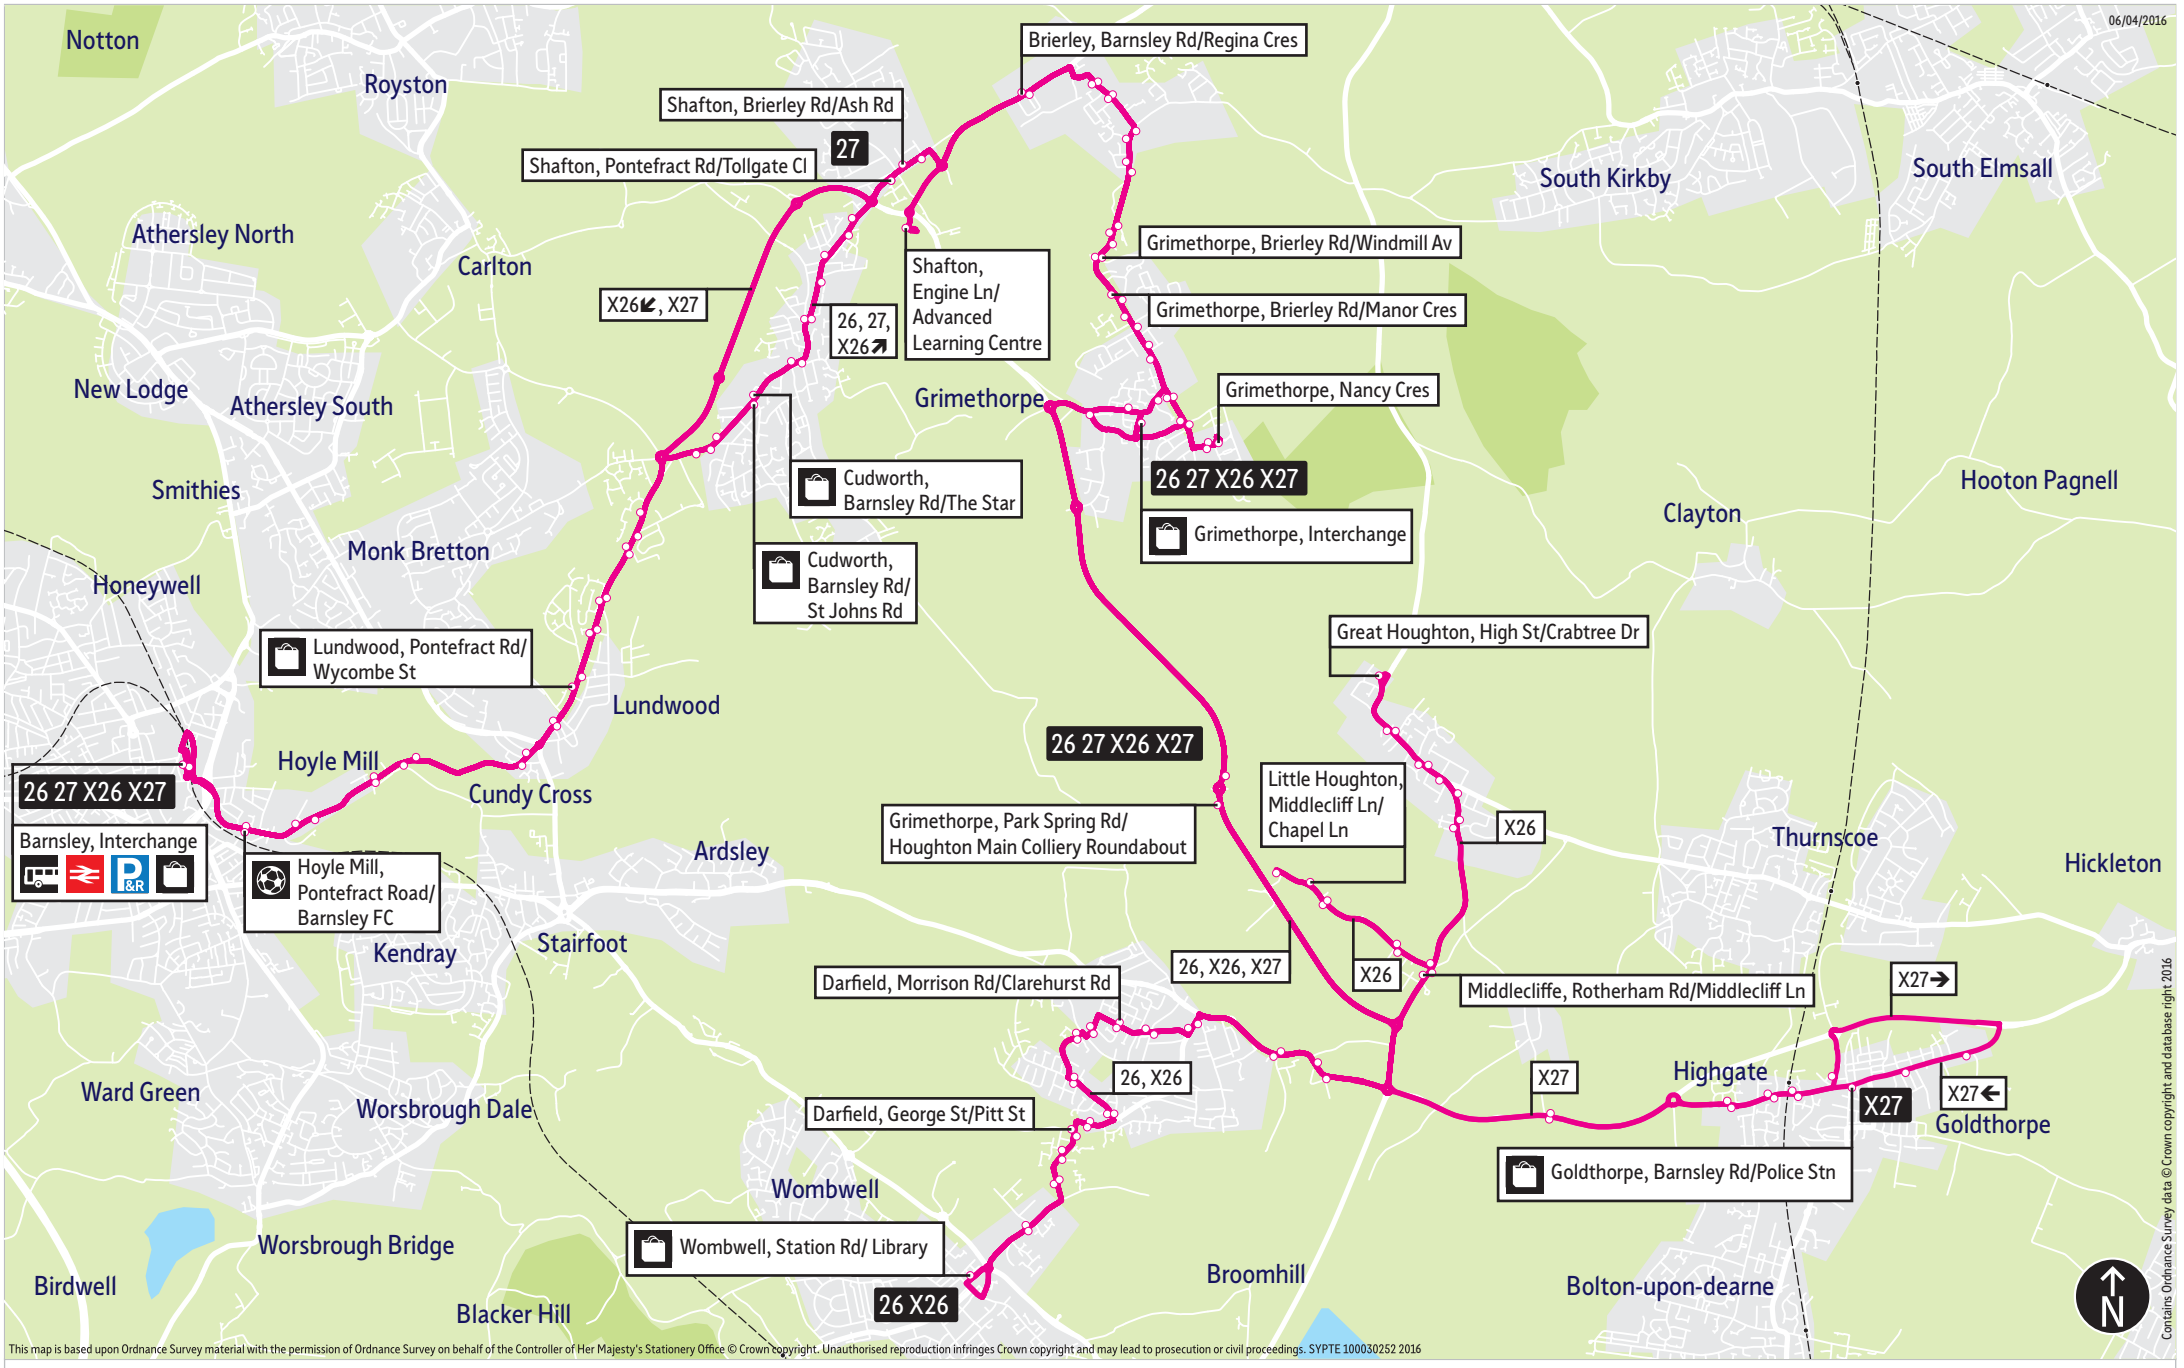

Operator(s)

Stagecoach

24 hour clock

24 hour clock

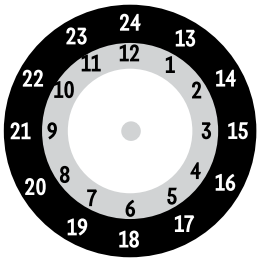

Throughout South Yorkshire our timetables use the 24 hour clock to avoid confusion between am and pm times.

For example:

9.00am is shown as 0900

2.15pm is shown as 1415

10.25pm is shown as 2225

24 hour times

12 hour times

28, 28a ▸ Saturday — Barnsley Centre ▸ Pontefract

WEST YORKSHIRE COMBINED AUTHORITY

METRO

METRO

Wakefield Line Timetable

West Yorkshire local rail services between Leeds and South Elmsall / Moorthorpe are operated by Northern on behalf of Metro.

This timetable shows all trains between Leeds and Doncaster/ Sheffield, some of which are operated by Virgin Trains East Coast, CrossCountry and East Midlands Trains. Additional trains run between Leeds and Sheffield via Barnsley (see Hallam Line timetable). For a summary of all trains between Leeds and Sheffield / Derby / Nottingham (via both routes), see the Leeds - Sheffield composite timetable.

National Rail
Britain's train companies working together

You can download this timetable from **www.wymetro.com**

Off-peak train travel ticket restrictions

Off-peak tickets can **no longer be used** during the **Monday to Friday evening peak time** on rail services within West Yorkshire departing between 1601 and 1829. If you currently use off-peak tickets during the evening peak, you will either have to travel **earlier or later** or **buy an 'Anytime' ticket**.

Ticket Type	Monday to Friday Peak Travel before 0930 and between 1601 and 1829	Monday to Friday Off-Peak Travel between 0930 and 1600 and after 1830
Advanced tickets	Valid for travel only on the date and time printed on the ticket.	
Anytime tickets	No restrictions	No restrictions
Off-Peak tickets	Restrictions apply as shown below	No restrictions

Off-Peak tickets restrictions

Before 0930, and between 1601 and 1829, the following are not valid Monday to Fridays for journeys wholly within **West Yorkshire, or on journeys between West Yorkshire and stations to and from Skipton or Knaresborough inclusive:**

- Off-peak Day Single and Return tickets
- Duo tickets
- West Yorkshire Adult Bus and Train DayRover*
- West Yorkshire Family Bus and Train DayRover*
- West Yorkshire Adult and Concession Train Only DayRovers
- West Yorkshire Senior ENCTS pass**
- West Yorkshire Disabled ENCTS pass (Bearer only & with/without companion)**

* Bus travel is not permitted before 0930, but no evening peak restriction applies on bus travel on these tickets.

** English National Concessionary Travel Scheme pass-holders, who are currently entitled to half-price, off-peak rail travel, will be able to purchase a half-fare Anytime ticket during the evening peak period.

If you are unsure about any of these restrictions you can call Northern Rail's Customer Relations team on 0333 222 0125, ask the conductor or a member of station staff.

Off-peak ticket restrictions do not apply on Saturdays, Sundays or Public Holidays.

Changes to Train Services

Engineering work sometimes affects weekend services and passengers are advised to check with National Rail Enquiries on **03457 48 49 50** (24 hours) before travelling, or visit the website at www.nationalrail.co.uk. The information shown in this timetable is subject to alteration, especially around public holidays.

The latest information on train running is available by phoning **TrainTrackerTM** from National Rail Enquiries on **0871 200 4950** or by texting **TrainTrackerTM**. Text to **84950**.

Tickets

Before you board the train

At staffed stations you must have a valid ticket or pass for your journey. This is a legal requirement which applies when the ticket office is open. When boarding at unstaffed stations, you must buy your ticket on the train unless you already have a valid ticket or pass.

Buying your ticket
You can buy your ticket from station ticket offices, quickfare ticket machines and some travel agents. If your journey starts at a station where no staff are in attendance, you can buy your ticket from the conductor on the train. Please purchase a ticket for the journey you are making as you risk prosecution if you travel without a valid ticket or pass. Through ticketing is available from the National Rail network to the **Keighley & Worth Valley Railway**, and to **Leeds Bradford International Airport** using the 757 bus link from and to Leeds station.

Plusbus
You can buy a ticket for both your rail journey and bus travel in one simple go - it's called Plusbus.
Plusbus is a discount price bus pass that you buy with your train ticket. It gives you unlimited bus travel either at the start, the end, or both ends of your train travel on most local bus services where Plusbus is available.
For more information on Plusbus, where it is available and the areas it covers, pick up a leaflet from your local staffed rail station or visit www.plusbus.info

Disabled Travellers

The train operators will do all they can to assist with your journey. See contact details above.

Taxis from Stations

At all main stations there is a taxi rank outside the station from which taxis are normally available. At many other stations there is a taxi rank or cab office nearby. To find out more information to assist your journey you can download the Traintaxi guide from the Internet at www.traintaxi.co.uk This gives information for all stations on the national rail network, including names and contact details of cab firms to enable pre-booking.

Smoking Policy

All trains and stations are now designated as "no smoking" areas throughout. Please respect other passengers' rights to enjoy a smoke free environment.

Passenger Representation

If you have a complaint that has not been dealt with to your satisfaction, you can contact the national rail passenger watchdog Transport Focus:

Website: www.transportfocus.org.uk
Email: advice@transportfocus.org.uk
Tel: **0300 123 2350**
Post: Transport Focus, FREEPOST RTEH-XAGE-BYKZ, PO Box 5594, Southend-on-Sea, SS1 9PZ.

British Transport Police

British Transport Police are responsible for law and order on the railway network. If you notice any acts of vandalism, theft or trespass on the railway or see anything suspicious please contact the 24 hour helpline on **0800 40 50 40** or Crimestoppers on **0800 555 111**.

Network Rail National Helpline

A 24 hour service for taking reports on infrastructure issues: track and embankments, fencing, level crossings, trees, vegetation and litter. Tel: **03457 11 41 41**.
