General Provisions

In response to the enquiry for drainage and water information, this search report was prepared following examination of Yorkshire Water Services Limited's records held at Western House, Halifax Road, Bradford BD6 2LZ and other summary records derived from the original. Yorkshire Water Services Limited is responsible for the accuracy of the information contained within the search report.

Yorkshire Water Services Limited trading as Safe-Move has carried out enquiries in to the property whose address is detailed on the front page of this report in accordance with its Terms and Conditions of sale which are set out in Appendix 2.

Question 1 - Interpretation of Drainage and Water Enquiry

Appendix 1 of this report contains definitions of terms and expressions identified in Part 1 of the Schedule 8 of Statutory Instrument 2007 No 1667 known as the Home Information Pack (No. 2) Regulations 2007 (the "Regulations").

Question 2 - Enquiries and Responses

This search report was completed by Yorkshire Water Services Limited trading as Safe-Move and complies with the requirements of the Regulations in relation to Drainage and Water Enquiries.

In the event of any queries about this report, enquires should be directed to Safe-Move whose contact details can be found below.

Safe-Move has put in place procedures to ensure that customers receive support in the event of any complaint. Our formal complaints procedure including our address for all correspondence is set out below:

Safe-Move Complaints Procedure.

We aim to provide a high standard of service and to treat you with courtesy and fairness at all times. We welcome any comments you may have and always try to answer queries and resolve complaints quickly and in full.

Safe-Move offers a staged, robust and uniformly efficient complaints process. Formal complaints can be made via the telephone, in writing or via email. We'll investigate your complaint and try to resolve it fully. If your complaint is fair, we'll say sorry and do everything to put things right as soon as possible.

Our contact details are:

Safe-Move
PO Box 99
Bradford
BD3 7YB

free phone 0800 1 385 385

e mail: safe-move@yorkshirewater.com

If you call us, we'll try to answer your enquiry or complaint immediately. If we can't we'll arrange to ring you back within an agreed timescale.

If you are not satisfied with the initial response, you should set out the basis of your complaint in writing by email, fax or letter. If you write to us we will look into the problem and reply within 5 working days of receipt.

If we fail to give you a written response within 5 working days Safe-Move will pay you £10.00 regardless of the outcome of your complaint.

On occasions your complaint may require more detailed investigation. In these instances we will keep you informed of our progress and update you with new timescales if necessary.

If we consider your complaint to be justified, or we have made an error in your search result, we will automatically refund your search fee. We will also provide you with a revised search and undertake the necessary action to put things right. You will be kept informed of any action required.

If your search takes us longer than 10 working days to complete and we have not communicated the reasons for the delay we will automatically refund your search fee.

If you are still not satisfied with the outcome of your complaint, or the way we've handled it, you can ask for the issue to be reviewed. If this is the case you should write to us without delay, explaining why you remain dissatisfied and what action you would like us to take. The review will be independent of the original investigations and may overturn the previous decision if appropriate. We'll let you know the outcome of your review, in writing, within 10 working days. At any time, if you ask us to, we will liaise with counselling organisations acting on your behalf.

If you are not satisfied with the final decision, you may refer the complaint to the Independent Property Codes Adjudication Scheme (IPCAS) and we will give you contact details. We will co-operate fully with the independent adjudicator during the consideration of a complaint by IPCAS and comply with any decision.

Yorkshire Water Services Ltd T/A Safe-Move is registered with the Property Codes Compliance Board as a subscriber to the Search Code.

The Search Code provides protection for homebuyers, sellers, conveyancers and mortgage lenders, who rely on property search reports carried out on residential property within the United Kingdom. It sets out minimum standards which organisations compiling and/or selling search reports have to meet. This information is designed to introduce the Search Code to you.

By giving you this information, your search organisation is confirming that they keep to the principles of the Search Code. This provides important protection for you.

The Code's main commitments

The Search Code's key commitments say that search organisations will:

- Provide search reports which include the most up-to-date available information when compiled and an accurate report of the risks associated with the property.
- Deal promptly with queries raised on search reports.
- Handle complaints speedily and fairly.
- At all times maintain adequate and appropriate insurance cover to protect you.
- Act with integrity and ensure that all search services comply with relevant laws, regulations and industry standards.

Keeping to the Search Code

How search organisations maintain compliance with the Search Code is monitored independently by the Property Codes Compliance Board (PCCB). If you have a query or complaint about your search, you should raise it directly with the firm, and if appropriate ask for your complaint to be considered under their formal internal complaints procedure. If you remain dissatisfied with the firm's final resolution after your complaint has been formally considered or if the firm has exceeded the response timescales, you may refer your complaint to the Independent Property Codes Adjudication Scheme (IPCAS). IPCAS can award compensation of up to £5,000 to you if it finds that you have suffered loss as a result of your search provider failing to keep to the Code.

Please note that all queries or complaints regarding your search should be directed to your search provider in the first instance, not to IPCAS.

IPCAS Contact Details: Telephone: 020 7520 3800 Email: info@idrs.ltd.uk

You can also get more information about the PCCB and IPCAS from the PCCB website at: www.propertycodes.org.uk.

PLEASE ASK YOUR SEARCH ORGANISATION IF YOU WOULD LIKE A COPY OF THE FULL SEARCH CODE

Question 3 - Where relevant, please include a copy of an extract from the public sewer map.

A copy of an extract from the public sewer map is included in which the location of the property is identified.

1. Public Sewers are defined as those for which the Sewerage Undertaker holds statutory responsibility under the Water Industry Act 1991.
2. The Sewerage Undertaker is not generally responsible for rivers, watercourses, ponds, culverts or highway drains. If any of these are shown on the copy extract they are shown for information only.
3. Sewers indicated on the extract of the public sewer map as being subject to an agreement under section 104 of the Water Industry Act 1991 are not an 'as constructed' record. It is recommended that these details are checked with the developer.
4. Assets other than public sewers may be shown on the copy extract, for information only.

Question 4 - Does foul water from the property drain to a public sewer?

This enquiry appears to relate to a plot of land or a recently built property. It is recommended that drainage proposals are checked with the developer.

1. Sewerage Undertakers are not responsible for private drains and sewers that connect the property to the public sewerage system, and do not hold details of these.
2. The property owner will normally have sole responsibility for private drains serving the property and may have shared responsibility, with other users, if the property is served by a private sewer which also serves other properties. These may pass through land outside of the control of the seller and the buyer may wish to investigate whether separate rights or easements are needed for their inspection, repair or renewal.
3. If foul water does not drain to the public sewerage system the property may have private facilities in the form of a cesspit, septic tank or other type of treatment plant.
4. An extract from the public sewer map is enclosed. This will show known public sewers in the vicinity of the property and it should be possible to estimate the likely length and route of any private drains and/or sewers connecting the property to the public sewerage system.

Question 5 - Does surface water from the property drain to a public sewer?

This enquiry appears to relate to a plot of land or a recently built property. It is recommended that drainage proposals are checked with the developer.

1. Sewerage Undertakers are not responsible for private drains and sewers that connect the property to the public sewerage system, and do not hold details of these.
2. The property owner will normally have sole responsibility for private drains serving the property and may have shared responsibility, with other users, if the property is served by a private sewer which also serves other properties. These may pass through land outside of the control of the seller and the buyer may wish to investigate whether separate rights or easements are needed for their inspection, repair or renewal.
3. In some cases, Sewerage Undertakers' records do not distinguish between foul and surface water connections to the public sewerage system. If on inspection the buyer finds that the property is not connected for surface water drainage, the property may be eligible for a rebate of the surface water charge. Details can be obtained from the Sewerage Undertaker.
4. If surface water does not drain to the public sewerage system the property may have private facilities in the form of a soakaway or private connection to a watercourse.
5. An extract from the public sewer map is enclosed. This will show known public sewers in the vicinity of the property and it should be possible to estimate the likely length and route of any private drains and/or sewers connecting the property to the public sewerage system.

Question 6 - Are any sewers or lateral drains serving or which are proposed to serve the property the subject of an existing adoption agreement or an application for such an agreement?

Records confirm that sewers serving the development, of which the property forms part, are not the subject of an existing adoption agreement or an application for such an agreement.

1. Where the property is part of a very recent or ongoing development and the sewers are not the subject of an adoption application, buyers should consult with the developer to ascertain the extent of private drains and sewers for which they will hold maintenance and renewal liabilities
2. Final adoption is subject to the developer complying with the terms of the adoption agreement under Section 104 of the Water Industry Act 1991.
3. This enquiry is of interest to purchasers of new homes who will want to know whether or not the property will be linked to a public sewer.

Question 7 - Does the public sewer map indicate any public sewer, disposal main or lateral drain within the boundaries of the property?

The public sewer map indicates that there are no public sewers, disposal mains or lateral drains within the boundaries of the property. However, it has not always been a requirement for such public sewers, disposal mains or lateral drains to be recorded on the public sewer map. It is therefore possible for unidentified sewers, disposal mains or lateral drains to exist within the boundaries of the property.

1. The boundary of the property has been determined by reference to the Ordnance Survey record.
2. The presence of a public sewer within the boundary of the property may restrict further development within that boundary. The Sewerage Undertaker has a statutory right of access to carry out work on its assets, subject to notice. This may result in employees of the Sewerage Undertaker or its contractors needing to enter the property to carry out work.
3. Sewers indicated on the extract of the public sewer map as being subject to an agreement under Section 104 of the Water Industry Act 1991 are not an 'as constructed' record. It is recommended these details be checked with the developer.

Question 8 - Does the public sewer map indicate any public sewer within 30.48 metres (100 feet) of any buildings within the property?

The public sewer map indicates that there are no public sewers within 30.48 metres (100 feet) of a building within the property. However, it has not always been a requirement for such public sewers to be recorded on the public sewer map. It is therefore possible for unidentified sewers or public sewers to exist within the boundaries of the property.

1. The presence of a public sewer within 30.48 metres (100 feet) of the building(s) within the property can result in the Local Authority requiring a property to be connected to the public sewer.
2. Sewers indicated on the extract of the public sewer map as being subject to an agreement under Section 104 of the Water Industry Act 1991 are not an 'as constructed' record. It is recommended that these details are checked with the developer.
3. The measure is estimated from the Ordnance Survey record, between the building(s) within the boundary of the property and the nearest public sewer.

Question 9 - Has a sewerage undertaker approved or been consulted about any plans to erect a building or extension on the property over or in the vicinity of a public sewer, disposal main or drain?

This information is unavailable as the enquiry appears to relate to a new development.

1. Buildings or extensions erected over a sewer in contravention of building controls may have to be removed or altered.
2. Prior to 1997 Yorkshire Water had sewerage arrangements with the Local Authorities as a result of which there may have been consultations which Yorkshire Water are not aware of. Since 1st April 2002 building over or near to a public sewer has been controlled by Requirement H4 of The Building Regulations 2000 but Yorkshire Water only acts as a consultee and final approval remains with the Building Inspectorate.

Question 10 - Where relevant, please include a copy of an extract from the map of waterworks.

A copy of an extract from the map of waterworks is included in which the location of the property is identified.

1. The "water mains" in this context are those which are vested in and maintainable by the Water Undertaker under statute.
2. Assets other than vested water mains may be shown on the plan, for information only.
3. Water Undertakers are not responsible for private supply pipes connecting the property to the public water main and do not hold details of these. These may pass through land outside of the control of the seller, or may be shared with adjacent properties. The buyer may wish to investigate whether separate rights or easements are needed for their inspection, repair or renewal.
4. If an extract of the public water main record is enclosed, this will show known public water mains in the vicinity of the property. It should be possible to estimate the likely length and route of any private water supply pipe connecting the property to the public water network.

Question 11 - Is any water main or service pipe serving or which is proposed to serve the property the subject of an existing adoption agreement or an application for such an agreement?

Records confirm that water mains or service pipes serving the property are not the subject of an existing adoption agreement or an application for such an agreement.

This enquiry is of interest to purchasers of new homes who will want to know whether or not the property will be linked to the mains water supply.

Question 12 - Who are the sewerage and water undertakers for the area?

Yorkshire Water Services Limited, Western House, Halifax Road, Bradford BD6 2SZ is the sewerage undertaker for the area and Yorkshire Water Services Limited, Western House, Halifax Road, Bradford BD6 2SZ is the water undertaker for the area.

Question 13 - Is the property connected to mains water supply?

This enquiry relates to a plot of land or a recently built property. It is recommended that the water supply proposals are checked with the developer.

Question 14 - Are there any water mains, resource mains or discharge pipes within the boundaries of the property?

The map of waterworks indicates that there are water mains, resource mains or discharge pipes within the boundaries of the property.

1. The boundary of the property has been determined by reference to the Ordnance Survey record

2. The presence of a public water main within the boundary of the property may restrict further development within it. Water Undertakers have a statutory right of access to carry out work on their assets, subject to notice. This may result in employees of the Water Undertaker or its contractors needing to enter the property to carry out work.

Question 15 - What is the current basis for charging for sewerage and water services at the property?

Records indicate that this enquiry relates to a plot of land or a recently built property.

1. Water and Sewerage Companies full charges are set out in their charges schemes which are available from the Company free of charge upon request.
2. The Company may install a meter where a buyer makes a change of use of the property or where the buyer uses water for:
 - watering the garden, other than by hand
 - automatically replenishing a pond or swimming pool with a capacity greater than 10,000 litres
 - a bath with capacity greater than 230 litres
 - a reverse osmosis unit
3. The Water Industry Act 1991 Section 150, The Water Resale Order 2001 provides protection for people who buy their water or sewerage services from a person or company instead of directly from a water or sewerage company. Details are available from the Office of Water Services (OFWAT) Web Site: www.ofwat.gov.uk

Question 16 - Will the basis for charging for sewerage and water services at the property change as a consequence of a change of occupation?

Records indicate that this enquiry relates to a plot of land or a recently built property. It is recommended that the charging proposals are checked with the developer.

1. Water and Sewerage Undertakers full charges are set out in their charges schemes which are available from the Company free of charge upon request.
2. The Water Undertaker may install a meter where a buyer makes a change of use of the property or where the buyer uses water for:
 - watering the garden, other than by hand
 - automatically replenishing a pond or swimming pool with a capacity greater than 10,000 litres
 - a bath with capacity greater than 230 litres
 - a reverse osmosis unit
3. It should be noted that a change in the charging basis is not expected if there is no change in use of the property. In the event of any doubt please contact the company responsible for billing the property as detailed in questions 19 and 20.

Question 17 - Is a surface water drainage charge payable?

Records indicate that this enquiry relates to a plot of land or a recently built property. It is recommended that the charging proposals are checked with the developer.

1. Where surface water from a property does not drain to the public sewerage system no surface water drainage charges are payable.
2. Where surface water charges are payable but on inspection the property owner believes that surface water does not drain to the public sewerage system, application can be made to the Company to review the charging situation.
3. It should be noted that surface water drainage charges increase annually with effect from the 1st April.

Question 18 - Please include details of the location of any water meter serving the property.

Records indicate that this enquiry relates to a plot of land or a recently built property. It is recommended that the charging proposals are checked with the developer.

Question 19 - Who bills the property for sewerage services?

This information is unavailable as the enquiry appears to relate to a new development.

Question 20 - Who bills the property for water services?

This information is unavailable as the enquiry appears to relate to a new development.

Question 21 - Is the dwelling-house which is or forms part of the property at risk of internal flooding due to overloaded public sewers?

This information is unavailable as the enquiry appears to relate to a new development.

1. A sewer is "overloaded" when the flow from a storm is unable to pass through it due to a permanent problem (eg flat gradient, small diameter). Flooding as a result of temporary problems such as blockages, siltation, collapses and equipment or operational failures are excluded.
2. "Internal flooding" from public sewers is defined as flooding which enters a building or passes below a suspended floor. For reporting purposes buildings are restricted to those normally occupied and used for residential, public, commercial, business or industrial purposes.
3. At Risk properties are those that the Sewerage Undertaker is required to include in the Regulatory Register that is reported annually to the Director General of Water Services. These are defined as properties that have suffered or are likely to suffer internal flooding from public foul, combined or surface water sewers due to overloading of the sewerage system more frequently than the relevant reference period (either once or twice in ten years) as determined by the Sewerage Undertaker's reporting procedure.
4. Flooding as a result of storm events proven to be exceptional and beyond the reference period of one in ten years are not included on the At Risk register.
5. Properties may be at risk of flooding but not included on the Register where flooding incidents have not been reported to the Sewerage Undertaker.
6. Public sewers are defined as those for which the Sewerage Undertaker holds statutory responsibility under the Water Industry Act 1991.
7. It should be noted that flooding can occur from private sewers and drains which are not the responsibility of the Sewerage Undertaker. This report excludes flooding from private sewers and drains and the Sewerage Undertaker makes no comment upon this matter.

Question 22 - Is the property at risk of receiving low water pressure or flow?

This information is unavailable as the enquiry appears to relate to a new development.

1. "Low water pressure" means water pressure below the regulatory reference level which is the minimum pressure when demand on the system is not abnormal.
2. Water Undertakers are required to include in the Regulatory Register that is reported annually to the Director General of Water Services properties receiving pressure below the reference level, provided that allowable exclusions do not apply (i.e. events which can cause pressure to temporarily fall below the reference level).
3. The reference level of service is a flow of 9 litres/minute at a pressure of 10metres head on the customer's side of the main stop tap (mst). The reference level of service must be applied on the customer's side of a meter or any other company fittings that are on the customer's side of the main stop tap. The reference level applies to a single property. Where more than one property is served by a common service pipe, the flow assumed in the reference level must be appropriately increased to take account of the total number of properties served. For two properties, a flow of 18 litres/minute at a pressure of 10metres head on the customers' side of the mst is appropriate. For three or more properties the appropriate flow should be calculated from the standard loadings provided in BS6700 or Institute of Plumbing handbook.
4. Allowable exclusions
The Company is required to include in the Regulatory Register properties receiving pressure below the reference level, provided that allowable exclusions listed below do not apply

5. Abnormal demand: This exclusion is intended to cover abnormal peaks in demand and not the daily, weekly or monthly peaks in demand which are normally expected. Companies should exclude from the reported DG2 figures properties which are affected by low pressure only on those days with the highest peak demands. During the report year companies may exclude, for each property, up to five days of low pressure caused by peak demand.
6. Planned maintenance: Companies should not report under DG2 low pressures caused by planned maintenance. It is not intended that companies identify the number of properties affected in each instance. However, companies must maintain sufficiently accurate records to verify that low pressure incidents that are excluded from DG2 because of planned maintenance are actually caused by maintenance.
7. One-off incidents: This exclusion covers a number of causes of low pressure; mains bursts; Failures of company equipment (such as PRVs or booster pumps); Firefighting; and Action by a third party. However, if problems of this type affect a property frequently, they cannot be classed as one-off events and further investigation will be required before they can be excluded.
8. Low pressure incidents of short duration: Properties affected by low pressures which only occur for a short period, and for which there is evidence that incidents of a longer duration would not occur during the course of the year, may be excluded from the reported DG2 figures.

Question 23 - Please include details of a water quality analysis made by the water undertaker for the water supply zone in respect of the most recent calendar year.

The analysis confirmed that all tests met the standards prescribed by the 2000 Regulations or the 2001 Regulations.

1. Water Undertakers have a duty to provide wholesome water that meets the standards of the Water Supply (Water Quality) Regulations 2000.
2. In England and Wales these Regulations implement the requirements of the European Drinking Directive 98/83/EC. The 2000 Regulations impose standards for a range of parameters, which are either health based to ensure the water is safe to drink or to ensure the water is aesthetically acceptable. They also require that drinking water should not contain any element, organism or substance (whether or not a parameter) at a concentration or value which would be detrimental to public health.
3. Water quality is normally tested at the tap used for domestic consumption normally in the kitchen. However, the householder is responsible for any of deterioration in water quality that is a result of the domestic distribution system (the supply pipe and the plumbing within the property) that results in the standards not being met.
4. If there are concerns that lead pipes within the property may be causing high levels of lead in your drinking water please contact your Water Undertaker for further advice.
5. The Water Undertaker undertakes a monitoring programme to establish water quality that includes random sampling from domestic properties. It will notify the consumers of any failures to meet the water quality standards that are due to the condition or maintenance of the domestic distribution system.
6. The data collected by the Water Undertaker is subject to external review by the drinking water inspectorate (DWI) and by local and health authorities. In addition to reviewing quality data the DWI also carry out audits during which any area of the company's operational can be examined. Further information may be found at www.dwi.gov.uk

Question 24 - Please include details of any departures, authorised by the Secretary of State under Part 6 of the 2000 Regulations from the provisions of Part 3 of those Regulations.

There are no such authorised departures for the water supply zone.

Authorised departures are not permitted if the extent of the departure from the standard is likely to constitute a potential danger to human health.

Please contact the water company detailed in Q12 if you require further information.

Question 25 - Please state the distance from the property to the nearest boundary of the

nearest sewage treatment works.

The nearest sewage treatment works and its' distance from the property is as shown in the public sewer map supplied.

1. The nearest sewage treatment works will not always be the sewage treatment works serving the catchment within which the property is situated.
2. The Sewerage undertakers records were inspected to determine the nearest sewage treatment works. It should be noted therefore that there may be a private sewage treatment works closer than the one detailed that has not been identified.

Appendix 1 General Interpretation

1. (1) In this Schedule—

"the 1991 Act" means the Water Industry Act 1991(a);

"the 2000 Regulations" means the Water Supply (Water Quality) Regulations 2000(b);

"the 2001 Regulations" means the Water Supply (Water Quality) Regulations 2001(c);

"adoption agreement" means an agreement made or to be made under Section 51A(1) or 104(1) of the 1991 Act (d);

"bond" means a surety granted by a developer who is a party to an adoption agreement;

"bond waiver" means an agreement with a developer for the provision of a form of financial security as a substitute for a bond;

"calendar year" means the twelve months ending with 31st December;

"discharge pipe" means a pipe from which discharges are made or are to be made under Section 165(1) of the 1991 Act;

"disposal main" means (subject to Section 219(2) of the 1991 Act) any outfall pipe or other pipe which—

(a) is a pipe for the conveyance of effluent to or from any sewage disposal works, whether of a sewerage undertaker or of any other person; and

(b) is not a public sewer;

"drain" means (subject to Section 219(2) of the 1991 Act) a drain used for the drainage of one building or any buildings or

yards appurtenant to buildings within the same curtilage;

"effluent" means any liquid, including particles of matter and other substances in suspension in the liquid;

"financial year" means the twelve months ending with 31st March;

"lateral drain" means—

(a) that part of a drain which runs from the curtilage of a building (or buildings or yards within the same curtilage) to the sewer with which the drain communicates or is to communicate; or

(b) (if different and the context so requires) the part of a drain identified in a declaration of vesting made under Section 102 of the 1991 Act or in an agreement made under section 104 of that Act (e);

"licensed water supplier" means a company which is the holder for the time being of a water supply licence under Section 17A(1) of the 1991 Act(f);

"maintenance period" means the period so specified in an adoption agreement as a period of time—

(a) from the date of issue of a certificate by a sewerage undertaker to the effect that a developer has built (or substantially built) a private sewer or lateral drain to that undertaker's satisfaction; and

(b) until the date that private sewer or lateral drain is vested in the sewerage undertaker;

"map of waterworks" means the map made available under section 198(3) of the 1991 Act (g) in relation to the information specified in subsection (1A);

"private sewer" means a pipe or pipes which drain foul or surface water, or both, from premises, and are not vested in a sewerage undertaker;

"public sewer" means, subject to Section 106(1A) of the 1991 Act(h), a sewer for the time being vested in a sewerage undertaker in its capacity as such, whether vested in that undertaker—

(a) by virtue of a scheme under Schedule 2 to the Water Act 1989(i);

(b) by virtue of a scheme under Schedule 2 to the 1991 Act (j);

(c) under Section 179 of the 1991 Act (k); or

(d) otherwise;

"public sewer map" means the map made available under Section 199(5) of the 1991 Act (l);

"resource main" means (subject to Section 219(2) of the 1991 Act) any pipe, not being a trunk main, which is or is to be used for the purpose of—

(a) conveying water from one source of supply to another, from a source of supply to a regulating reservoir or from a regulating reservoir to a source of supply; or

(b) giving or taking a supply of water in bulk;

"sewerage services" includes the collection and disposal of foul and surface water and any

other services which are required to be provided by a sewerage undertaker for the purpose of carrying out its functions;

"Sewerage Undertaker" means the Company appointed to be the sewerage undertaker under Section 6(1) of the 1991 Act for the area in which the property is or will be situated;

"surface water" includes water from roofs and other impermeable surfaces within the curtilage of the property;

"water main" means (subject to Section 219(2) of the 1991 Act) any pipe, not being a pipe for the time being vested in a person other than the water undertaker, which is used or to be used by a water undertaker or licensed water supplier for the purpose of making a general supply of water available to customers or potential customers of the undertaker or supplier, as distinct from for the purpose of providing a supply to particular customers;

"water meter" means any apparatus for measuring or showing the volume of water supplied to, or of effluent discharged from any premises;

"water supplier" means the Company supplying water in the water supply zone, whether a water undertaker or licensed water supplier;

"water supply zone" means the names and areas designated by a water undertaker within its area of supply that are to be its water supply zones for that year, and

"Water Undertaker" means the Company appointed to be the water undertaker under Section 6(1) of the 1991 Act for the area in which the property is or will be situated.

(2) In this Schedule, references to a pipe, including references to a main, a drain or a sewer, shall include references to a tunnel or conduit which serves or is to serve as the pipe in question and to any accessories for the pipe.

(a) 1991 c. 56.

(b) S.I. 2000/3184. These Regulations apply in relation to England.

(c) S.I. 2001/3911. These Regulations apply in relation to Wales.

(d) Section 51A was inserted by Section 92(2) of the Water Act 2003 (c. 37). Section 104(1) was amended by Section 96(4) of that Act.

(e) Various amendments have been made to Sections 102 and 104 by section 96 of the Water Act 2003.

(f) Inserted by Section 56 of and Schedule 4 to the Water Act 2003.

(g) Subsection (1A) was inserted by Section 92(5) of the Water Act 2003.

(h) Section 106(1A) was inserted by Section 99 of the Water Act 2003.

(i) 1989 c. 15.

(j) To which there are various amendments made by Section 101(1) of and Schedule 8 to the Water Act 2003.

(k) To which there are various amendments made by Section 101(1) of and Schedule 8 to the Water Act 2003.

(l) Section 199 was amended by Section 97(1) and (8) of the Water Act 2003.

APPENDIX 2 - DRAINAGE & WATER ENQUIRY (DOMESTIC) TERMS AND CONDITIONS

The Customer the Client and the Purchaser are asked to note these terms, which govern the basis on which this drainage and water report is supplied

Definitions

'The Company' means the water service company or their data service provider producing the Report.

'Order' means any request completed by the Customer requesting the Report.

'Report' means the drainage and/or water report prepared by The Company in respect of the Property.

'Property' means the address or location supplied by the Customer in the Order.

'Customer' means the person, company, firm or other legal body placing the Order, either on their own behalf as Client, or, as an agent for a Client.

'Client' means the person, company or body who is the intended recipient of the Report with an actual or potential interest in the Property

'Purchaser' means the actual or potential purchaser of an interest in the Property including their mortgage lender.

'the Regulations' means the Home Information Pack (No. 2) Regulations 2007.

Agreement

1.1 The Company agrees to supply the Report to the Customer and to allow it to be provided to the Client and the Purchaser subject, in each case, to these terms. The scope and limitations of the Report are described in paragraph 2 of these terms. The Customer shall be responsible for bringing these terms to the attention of the Client and the Purchaser as necessary.

1.2 The Customer, the Client and the Purchaser agree that the placing of an Order for a Report and the subsequent provision of a copy of the Report to the Purchaser indicates their acceptance of these terms.

The Report

2.1 Whilst The Company will use reasonable care and skill in producing the Report, it is provided to the Customer the Client and the Purchaser on the basis that they acknowledge and agree to the following:-

2.2 The information contained in the Report can change on a regular basis so The Company cannot be responsible to the Customer the Client and the Purchaser for any change in the information contained in the Report after the date on which the Report was first produced and sent to the Customer.

2.3 The Report does not give details about the actual state or condition of the Property nor should it be used or taken to indicate or exclude actual suitability or unsuitability of the Property for any particular purpose, or relied upon for determining saleability or value, or used as a substitute for any physical investigation or inspection. Further advice and information from appropriate experts and professionals should always be obtained.

2.4 The information contained in the Report is based upon the accuracy of the address supplied to The Company.

- 2.5 The Report provides information as to the location & connection of existing services and other information required to comply with the provisions of the Home Information Pack Regulations in relation to drainage and water enquiries and should not be relied on for any other purpose. The Report may contain opinions or general advice to the Customer, the Client and the Purchaser which The Company cannot ensure is accurate, complete or valid and for which it accepts no liability.
- 2.6 The position and depth of apparatus shown on any maps attached to the Report are approximate, and are furnished as a general guide only, and no warranty as to their correctness is given or implied. The exact positions and depths should be obtained by excavation trial holes and the maps must not be relied on in the event of excavation or other works made in the vicinity of The Company's apparatus.

Liability

- 3.1 The Company shall not be liable to the Customer, the Client or the Purchaser for any failure defect or non-performance of its obligations arising from any failure of or defect in any machine, processing system or transmission link or anything beyond The Company's reasonable control or the acts or omissions of any party for whom The Company is not responsible.
- 3.2 Where a report is requested for an address falling within a geographical area where two different companies separately provide Water and Sewerage Services, then it shall be deemed that liability for the information given by either company will remain with that company in respect of the accuracy of the information supplied. A company that supplies information which has been provided to it by another company for the purposes outlined in this agreement will therefore not be liable in any way for the accuracy of that information and will supply that information as agent for the company from which the information was obtained.
- 3.3 The Report is produced only for use in relation to individual domestic property transactions which require the provision of drainage and water information pursuant to the provisions of the Regulations and cannot be used for commercial development of domestic properties or commercial properties for intended occupation by third parties.
- 3.4 The Company shall accept liability for death or personal injury arising from its negligence but in any other case the Company's liability for negligence shall be in accordance with the permitted limit for liability identified in Schedule 6 paragraph 8 of the Regulations. In accordance with Schedule 6 paragraph 7 of the Regulations such liability will be met by The Company or its insurers and The Company has and will maintain an appropriate contract of insurance.

Copyright and Confidentiality

- 4.1 The Customer the Client and the Purchaser acknowledge that the Report is confidential and is intended for the personal use of the Client and the Purchaser. The copyright and any other intellectual property rights in the Report shall remain the property of The Company. No intellectual or other property rights are transferred or licensed to the Customer the Client or the Purchaser except to the extent expressly provided.
- 4.2 The Customer or Client is entitled to make copies of the Report but may only copy Ordnance Survey mapping or data contained in or attached to the Report, if they have an appropriate licence from the originating source of that mapping or data.
- 4.3 The Customer the Client and the Purchaser agree (in respect of both the original and any copies made) to respect and not to alter any trademark, copyright notice or other property marking which appears on the Report.
- 4.4 The maps contained in the Report are protected by Crown Copyright and must not be used for any purpose outside the context of the Report.
- 4.5 The Customer the Client and the Purchaser agree on a joint and several basis to indemnify The Company against any losses, costs, claims and damage suffered by The Company as a result of any breach by any of them of the terms of paragraphs 4.1 to 4.4 inclusive.

Payment

- 5.1 Unless otherwise stated all prices are inclusive of VAT. The Customer shall pay for the price of the Report specified by The Company, without any set off, deduction or counterclaim. Unless the Customer has an account with The Company for payment for Reports, The Company must receive payment for Reports in full before the Report is produced. For Customers with accounts, payment terms will be as agreed with The Company.

General

- 6.1 If any provision of these terms is or becomes invalid or unenforceable, it will be taken to be removed from the rest of these terms to the extent that it is invalid or unenforceable. No other provision of these terms shall be affected.
- 6.2 These terms shall be governed by English law and all parties submit to the exclusive jurisdiction of the English courts.
- 6.3 Nothing in these terms and conditions shall in any way restrict the Customer's, the Clients or the Purchasers statutory or any other rights of access to the information contained in the Report.
- 6.4 The Report is supplied subject to these terms and conditions which include the terms required by Schedule 6 paragraphs 5, 6 and 7 of the Regulations.
- 6.5 These terms and conditions may be enforced by the Customer, the Client and the Purchaser.
