

Please find attached photos of tree T7. This tree which is situated to the side of our property, (The Gables, Carlton Road, S71 3JD), is overhanging into our neighbours property. It has flourished tremendously over the past few years and it's lower branches are causing damage to our neighbours house and shed.

Image 1 and 2 are showing the fact that this is a very large ash tree. In image 3 and 4, you can see the lower branches. There are 4 four of the lower branches which need to be cut back to within 2 feet from the trunk of the tree.

Image 5 shows 3 large branches that need to be cut back to within 2 feet of the trunk of the tree.
