

PLAN ELEVATION

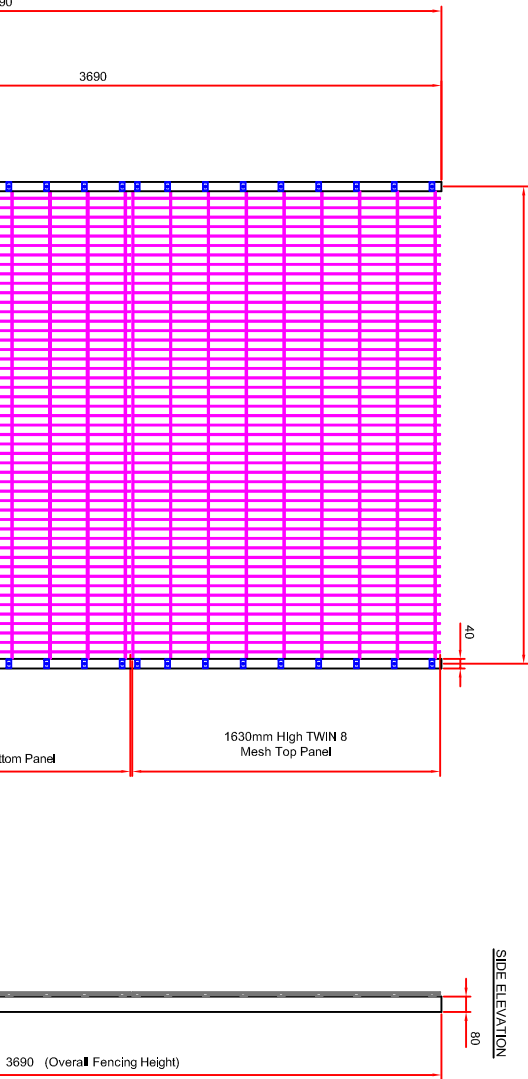

Fence Posts are supplied fitted with steel clips at 200mm or 400mm centres. Synthetic Rubber EPDM Inserts are also supplied which insulates panels from posts minimising noise.

FRONT ELEVATION

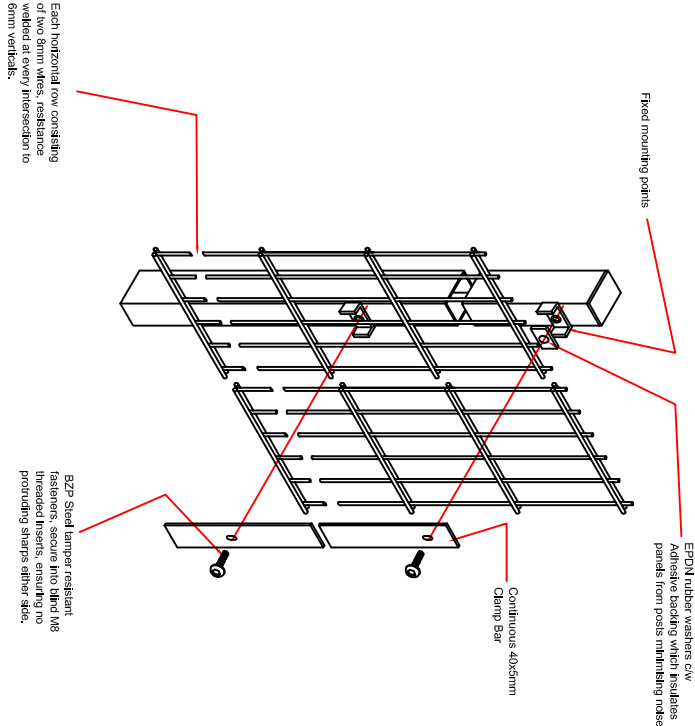

TWIN 8 Mesh Panels are fixed to fence posts via a continuous 40x5mm Clamp Bar with BZP Steel tamper resistant fasteners. Fasteners are secured into blind M8 threaded inserts in steel clips which ensures no protruding sharps to either side.

2525 (Typical Post Centres)

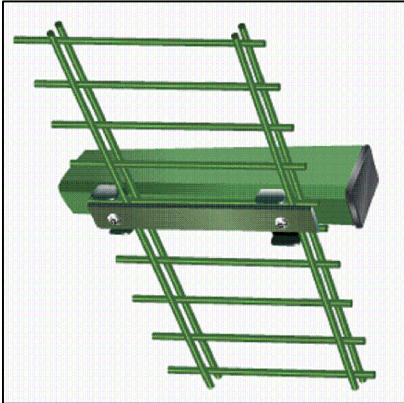

SIDE ELEVATION

ISOMETRIC ELEVATION

RENDERED ISOMETRIC ELEVATION

TWIN 8 Mesh Panels are fixed to fence posts via a continuous 40x5mm Clamp Bar which is held in place with M8x40mm Stainless Steel tamper resistant fasteners. Fasteners are secured into blind M8 threaded inserts in steel clips which ensures no protruding sharps to either side.

Sports Fence Posts are supplied fitted with steel clips at 200mm or 400mm centres. Synthetic Rubber EPDM Inserts are also supplied which insulates panels from posts minimising noise.

HEADSTART FENCING LIMITED.
