Dear Graham

Ref: 2008/0382 - Extension to 17 Rockside Road

I spoke with you a couple of weeks ago regarding the approved application for the extension to 17 Rockside Road and the possibility of putting in two additional small opaque windows to the lower floor bathroom and en-suite. Please find enclosed two elevational drawings that show these windows (bubbled) as you can see they are unobtrusive and have no impact on any neighbours, I can also confirm that they will be frosted or opaque glass, could you please confirm that you are happy with my client to proceed with this minor amendment to the planning approval

If you have any questions please do not hesitate to contact me.

Yours sincerely
