

APPLICATION NO: 2019/0176/
DESCRIPTION: Change of use of garage to dog
grooming parlour
LOCATION: 32 Agnes Road, Barnsley, S70
1NH

Proposed Grooming Details:

Much similar to the workings of a female Hair Salon or Male Barbers the type of grooming proposed will involve cutting hair with specialist professional scissors, shaving hair with specialist professional hand held hair clippers (dependant on type of style required) and washing hair with water & specialist shampoo, then rinsing with a shower head within a professional purpose made enclosed large sink/bath, finishing with the final stage of drying and brushing of the hair. From the dog owners perspective the purpose of obtaining this service is to achieve a more presentable & tidy look for their dogs & in some cases to relieve the dog of discomfort from the knotting of hair or from impaired vision caused by overly long hair.

Canine nail clipping is also proposed, using nail clippers much the same as used for human use.

No other type of animal grooming/services is proposed, with grooming/nail clipping services being limited to (primarily small to medium sized) dogs.

Just as with Hair Salons and Barbers, cleanliness is a must within any dog grooming parlour therefore all surfaces and equipment are to be cleaned after every appointment and maintained on a regular basis.
