Consultation Informative(s):

A public right of way (Thurgoland FP 2) runs alongside the proposed development site. Safe public access on the right of way should remain available at all times, with no obstruction of or encroachment onto the width of the path and no building debris, storage of materials or parked vehicles limiting access at any time. Appropriate measures should be taken to protect the public, including fencing if necessary. If safe public access is not possible at any time then a temporary closure must be arranged, providing at least 4 weeks' notice and details of how public access will be managed.
