3. Description of the Proposal

Please describe the proposed development including any change of use:

DROP CURB ON CLASSIFIED ROAD B6132

Residential parking at 2 Station Road (Located by a classified road B6132) where I have lived for almost 50 years has become very difficult, particularly in light of the recent sale & re- development of the adjacent Auto garage into the new "Coole Electrical" business. Therefore I propose to DROP THE CURB whilst also removing part of my boundary wall to make existing vehicle parking access to my property easier and safer.

As this is a classified road (i.e. B6132) I believe "Planning permission" is required prior to applying to drop the curb.

Also there is a Parking restriction sign post at the side of the wall which would need relocating by a few meters, as it impedes access to my property after the proposal work is completed.

The parking restrictions that this sign relates to are identical throughout this area, so moving it a few meters has no detrimental effect. I have already received email confirmation that this would be OK from Streetworks@barnsley.gov.uk (See Pre-application Advice section of this form)
Photograph detailing what I am asking "Planning permission" for included in this application.

Has the building, work or change of use already started? ☐ Yes ☒ No

Message body
Hi Mark,
Thank you for your recent enquiry. I have the following information for you.

The application form for the lowering of the kerb adjacent to your property is available on www.Barnsley.gov.uk if you search for dropped kerbs. The form is available for download along with the relevant information. (However I attach a copy for your convenience)

As you state in your enquiry and by looking at Google street view (2016) you appear to be using an unauthorised vehicular access, so rectification of this is appreciated. I wish to bring to your attention that Station Road, Royston is a classified road i.e. B6132 therefore Planning Approval is required for your particular application.

As you will see you have the option of a private contractor or a no obligation quotation from BMBC Operational Services, on completion of the application form please submit to Streetworks@barnsley.gov.uk for assessment and processing.

As part of your proposal you say that the sign adjacent to your access would need moving, I have checked with our Traffic Group and this would be acceptable but no further than the point where the boundary wall slopes down. This location is within the requirements of the Traffic Regulations for Lines and Signs and the sign would be relocated during the vehicular access crossing works.

Please note that Planning Approval must be sought by you via the Planning website and is not dealt with by Highways, but is required for VAC approval.

I trust the above answers your enquiry, if not please email back directly to me, otherwise please send all forms and payments as per instruction on the website or application form.

Kind regards

Kevin Ellam
Assistant Engineer
Environment & Transport
Place Directorate
BMBC
