SECRET GARDEN CHILDREN CENTRE CAR PARK
ACCESS STATEMENT

The Secret Garden Children Centre is located within the grounds of Athersley North Primary School.

The centre has been allocated 10 spaces in the existing school car park which, includes 2 disabled bays, providing a total of 43 parking spaces.

This number of spaces is inadequate to meet the needs of both the children centre and the school which results in staff having to park in neighbouring residential areas.

Another issue is with regard to parents bringing children to the centre having to park some considerable distance from the facility.

In order to alleviate the situation the school has agreed to give the Secret Garden Children Centre an area of land to enable them to develop additional parking for the centre.
