COMMUNICATION HUBS

THE ORIGINAL INNOVATOR

1964 - Jean-Claude Decaux invents the concept of advertising street furniture in Lyon, France.

1971 - Expansion into Portugal, the Company's first non-French speaking subsidiary.

1982 - Expansion into major European countries, including Germany and Spain.

1984 - JCDecaux enters the UK market for the first time.

1992 - Lord Norman Foster becomes first designer to work with JCDecaux.

1994 - JCDecaux wins its first contract in America.

2015 - JCDecaux UK is awarded the world's largest bus shelter advertising concession.

2019 - JCDecaux UK installs its first Communication Hub.

“

My whole career has been driven by a constant desire for excellence, a strong emphasis on design, and an obsession with always, always using our advertising-based business to serve the community.

”

JEAN-CLAUDE DECAUX

FOREWORD OF THE BOOK “JCDECAUX – 50 YEARS OF PASSION AND INNOVATION”

DELIVERING SMART CITY SOLUTIONS

JCDecaux UK is a pioneer for urban street furniture, supporting the delivery of smart cities in the communities it serves.

- Innovative products tailored to the unique requirements of people, cities and visitors
- Multi-functional Communication Hubs providing access to a wide range of digital services
- Keeping communities connected in the urban environment

IMPROVING THE PUBLIC REALM

GOOD FOR... COMMUNITY MESSAGING

Each day, JCDecaux is in contact with millions of people all over the world, providing them with increasingly relevant information and services as they travel.

JCDecaux UK works alongside local authorities and police services to provide a way to interact with communities, whether that be displaying Covid-19 information, encouraging voting in elections or providing messaging to keep cities safer.

“

GMP has used the digital screens on JCDecaux's Communication Hubs to promote a wide range of **key public messaging** including online reporting, safety in the night-time economy, counter-terrorism prevention and crime-prevention strategies. The Hubs have allowed us to reach a **large number of the public** passing the screens and our messaging has been received positively by the public. We have also been able to use the screens to support dedicated action days in specific locations. I believe this is a **positive initiative**, contributing to safety within Manchester City Centre.

”

INSPECTOR O'CONNOR

GREATER MANCHESTER POLICE

GOOD FOR... COMMUNITY MESSAGING

An innovative 'Tap to Donate' and digital donation scheme to tackle homelessness has been launched by Andy Burnham across Greater Manchester.

12 'tap to donate' points have been installed across the city region. Flagship locations include The Trafford Centre and JYSK stores in Stockport, Bolton, Bury and Oldham.

A digital screen campaign with a text to donate message and QR code on 17 digital Communication Hubs across Manchester City Centre, in partnership with JCDecaux UK, is supporting the campaign.

“

We are hugely grateful to our existing supporters and sponsors who have helped us roll out these devices so far. We're on a mission to achieve real change within the homelessness system right across our city region, but we cannot do it without the support of companies, businesses and the generous Greater Manchester public.

GOOD FOR... HEALTHY COMMUNITIES

IN PARTNERSHIP WITH THE COMMUNITY HEARTBEAT TRUST

Communication Hubs are designed with public health at the forefront of innovation and development, including the installation of defibrillators which can triple the chance of saving a life.

“

We are delighted to work with JCDecaux UK to provide defibrillators across the UK. Cardiac arrests can happen to anyone at any time and after calling 999 and doing CPR, using a defibrillator offers the best chance to save a life. Early defibrillation can triple a victim's chance of survival. With clear voice and visual instructions that guide the user through the process, these defibrillators are straightforward to use and require no special training, although we will work with the communities near these kiosks to offer training. We would urge everyone to be prepared, be ready and save a life.

”

MARTIN FAGAN

NATIONAL SECRETARY | THE COMMUNITY HEARTBEAT TRUST CHARITY

GOOD FOR... SAFETY

Communication Hubs utilise state-of-the-art technology to help keep the community safe.

INFOCUS TO COMMUNICATION HUB UNIT

User friendly and accessible, the Communication Hub, with an 86" digital screen, has a high quality, inclusive design which visually complements its environment.

“ The function of design is letting design function. ”

MICHA COMMEREN

In order to keep products and cityscapes looking their best, JCDecaux UK takes care of regular maintenance and cleaning, including consistent refurbishment.

SHORTLISTED FOR IEMA AWARDS

JCDecaux UK was shortlisted for two prestigious awards by the Institute of Environmental Management & Assessment (IEMA) in the following categories:

- Community and Social Value (for the social impact and charities programme)
- New Product, Service or Technology (for the Communication Hub rollout)

These nominations reflect JCDecaux UK's work within the communities it serves and the ability to deliver tangible benefits for people living, working and visiting its cities.
