Details of the pre-application advice received

Although the site is relatively central within the settlement of Howbrook, the whole area is washed over by Green Belt, as such, the site is allocated as Green Belt.

The NPPF states A local planning authority should regard the construction of new buildings as inappropriate in the Green Belt. Inappropriate development is, by definition, harmful to the Green Belt and should not be approved except in very special circumstances. The NPPF does, however, set out a number of exceptions where development in the Green Belt is not inappropriate, one of these states 'limited infilling in villages'. This exception has been utilised previously for the erection of detached dwellings on Carr Head Road (Refs 2015/1199 & 2017/0173).

In terms of the proposed property, there is no specific architectural style, size or design to follow as Carr Head Road is an eclectic mix of property styles, ages, sizes and types. The proposed dwelling also appears to meet the require internal and external spacing requirements, as set out in the South Yorkshire Residential Design Guide and SPD 'Design of Housing Development'.

What I would say is that to the South of the site is an extended bungalow and to the North is a pair of 1.5 storey modest bungalows. Given the proposal is for a 2 storey property we would need to see sections and streetscenes to ensure the property would sit comfortably within its context, as well as maintain the residential amenity of the neighbouring properties. The property is also set forward of number 1 and the proposed side elevation would be visible from the junction between Carr Head Road and Howbrook Lane/Hollinberry Lane.

The proposed dwelling would sit to the South of number 3 and have a 2 storey gable adjacent to the shared boundary, as such, we would need to carefully consider that impact, I assume the line on the plan shows the '45 degree' line from the neighbouring habitable room window.

The plans show 2no. parking spaces for the proposed dwelling, inline with SPD 'Parking', however, we would need to see full details of the parking provided for number 3 if an application is submitted. As stated above, I am still pushing for highways comments.

Consultee comments;

SYMAS

Further to your consultation request I have the following comments.

The site is partly located in a coal mining high risk referral area due to the conjectured outcrop of the Whinmoor coal seam being near to the site.

It is therefore possible that the site could be affected by mining legacy issues such as ground instability if shallow unrecorded mineworking's are present.

The applicant will therefore be required to submit a coal mining risk assessment with the future planning application.

Further information and guidance can be found at the coal authority website at-
<https://www.gov.uk/guidance/planning-applications-coal-mining-risk-assessments>

It is highly likely that the coal mining risk assessment will recommend an intrusive borehole site investigation is und

☐ Yes ☒ No

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

Do any of the above statements apply?
