

Billy & Kes Sculpture & Foundation Specifications

Material: The Billy and Kes statue is made from S275JR Steel at a thickness of 20mm. This was plasma cut from 20mm sheet and welded to the 20mm steel base.

Finish: The steel sculpture was welded and all edges deburred. Then it was shot blasted to make a smooth surface before being powder coated with black weather resistant coating. The colour is matt black and is also coated with a anti graffiti coating.

Foundation Size

700mm x 700mm x 300mm
Leaving 50mm around the edges of the steel base plate.

Concrete Grade: C20/25 or higher grade concrete to hold bolts

Concrete base:

A142 Top Mesh with 30mm clear cover

Fixings:

Baseplate to be bolted to concrete base using 8 x M12 bolts.
M12 bolts spacing to be resin bonded using A4 12 studs in R-KF2 polyester resin.

Location:

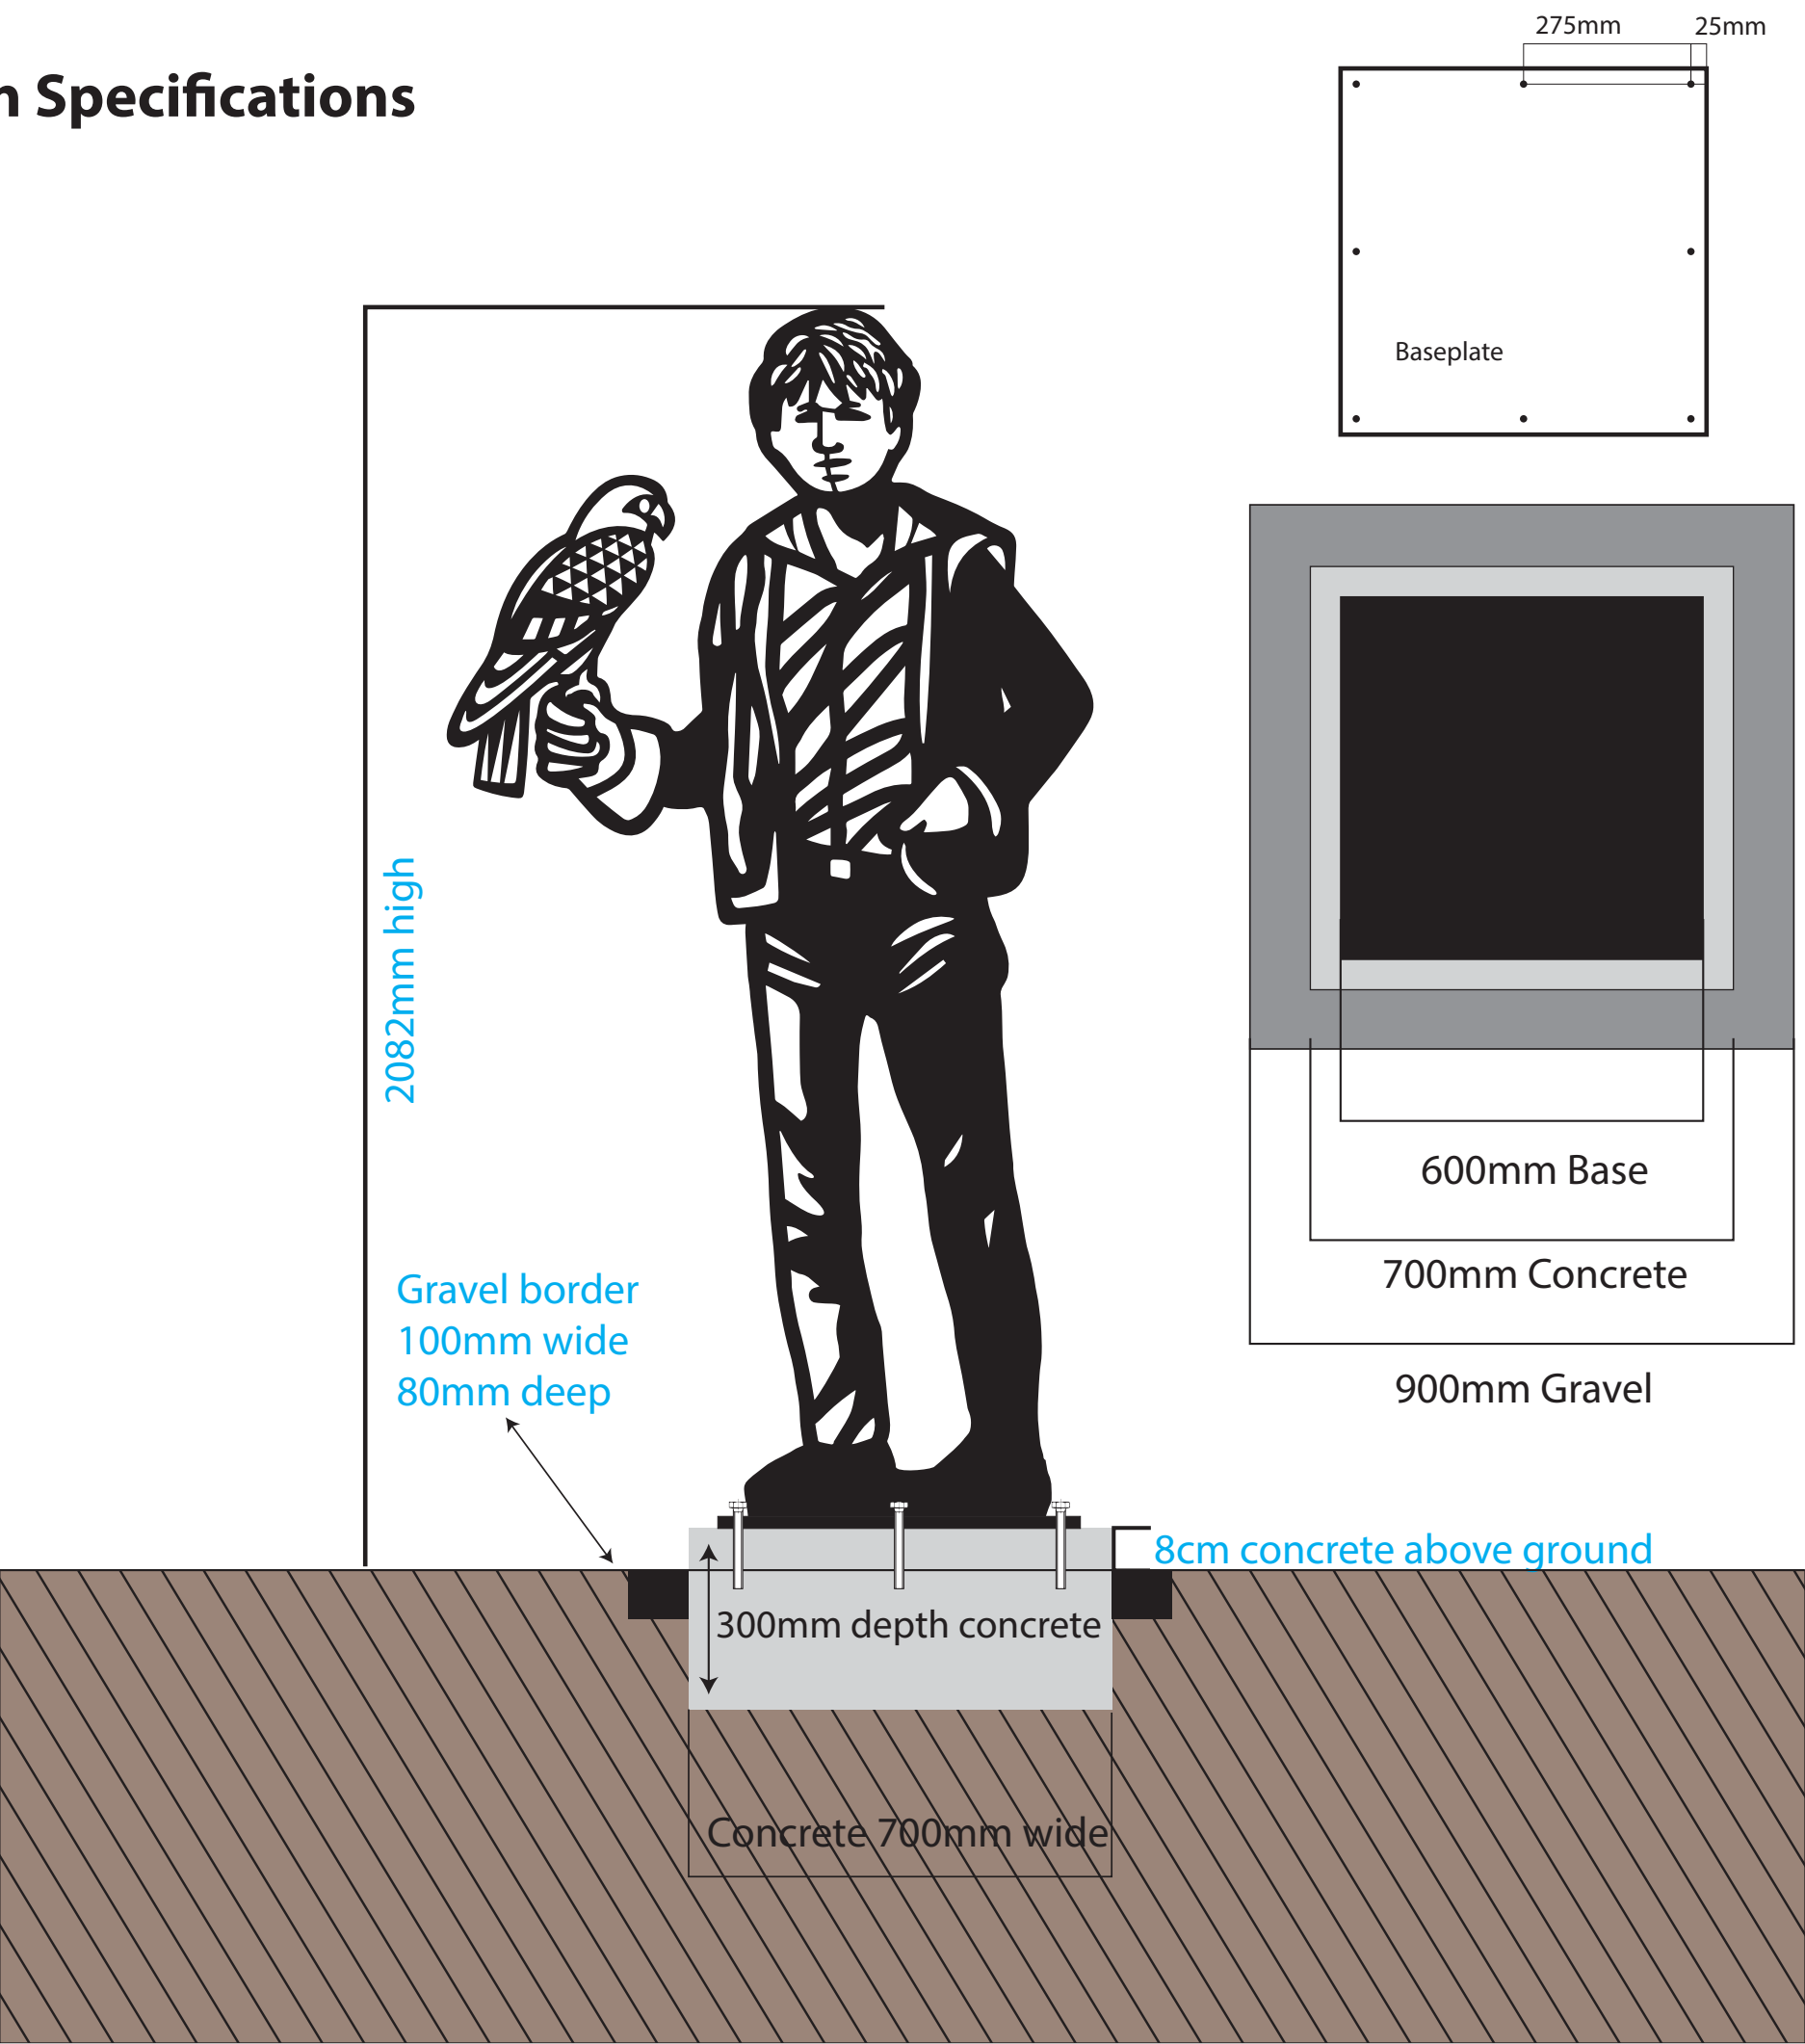

The sculpture will be located in a small park at the corner of Hoyland Road (B6096) and Stead Lane. Please see map locations and visuals.

Placement Strategy:

The statue is placed in this location because it faces the former home of Barry Hines (the author/creator of the novel 'A Kestral for Knave' and the film 'KES'. Barry Hines house features a blue plaque informing people who he was and when he lived here so this makes a strong local connection.

Base and Gravel

After consultation with the parks department it was agreed to place a margin of flat gravel all around the base of the sculpture to allow the grass to be easily cut around the base. See diagram.

Billy & Kes Sculpture Location

Location:

The sculpture will be located in a small park at the corner of Hoyland Road (B6096) and Stead Lane. Please see map locations and visuals.

The sculpture animates the park and connects to the story of Billy Casper and Kes by showing the character Billy Caspers love of nature and his connection with Hoyland Common. It also will be viewable by people waiting for a bus.

Billy & Kes Sculpture Location

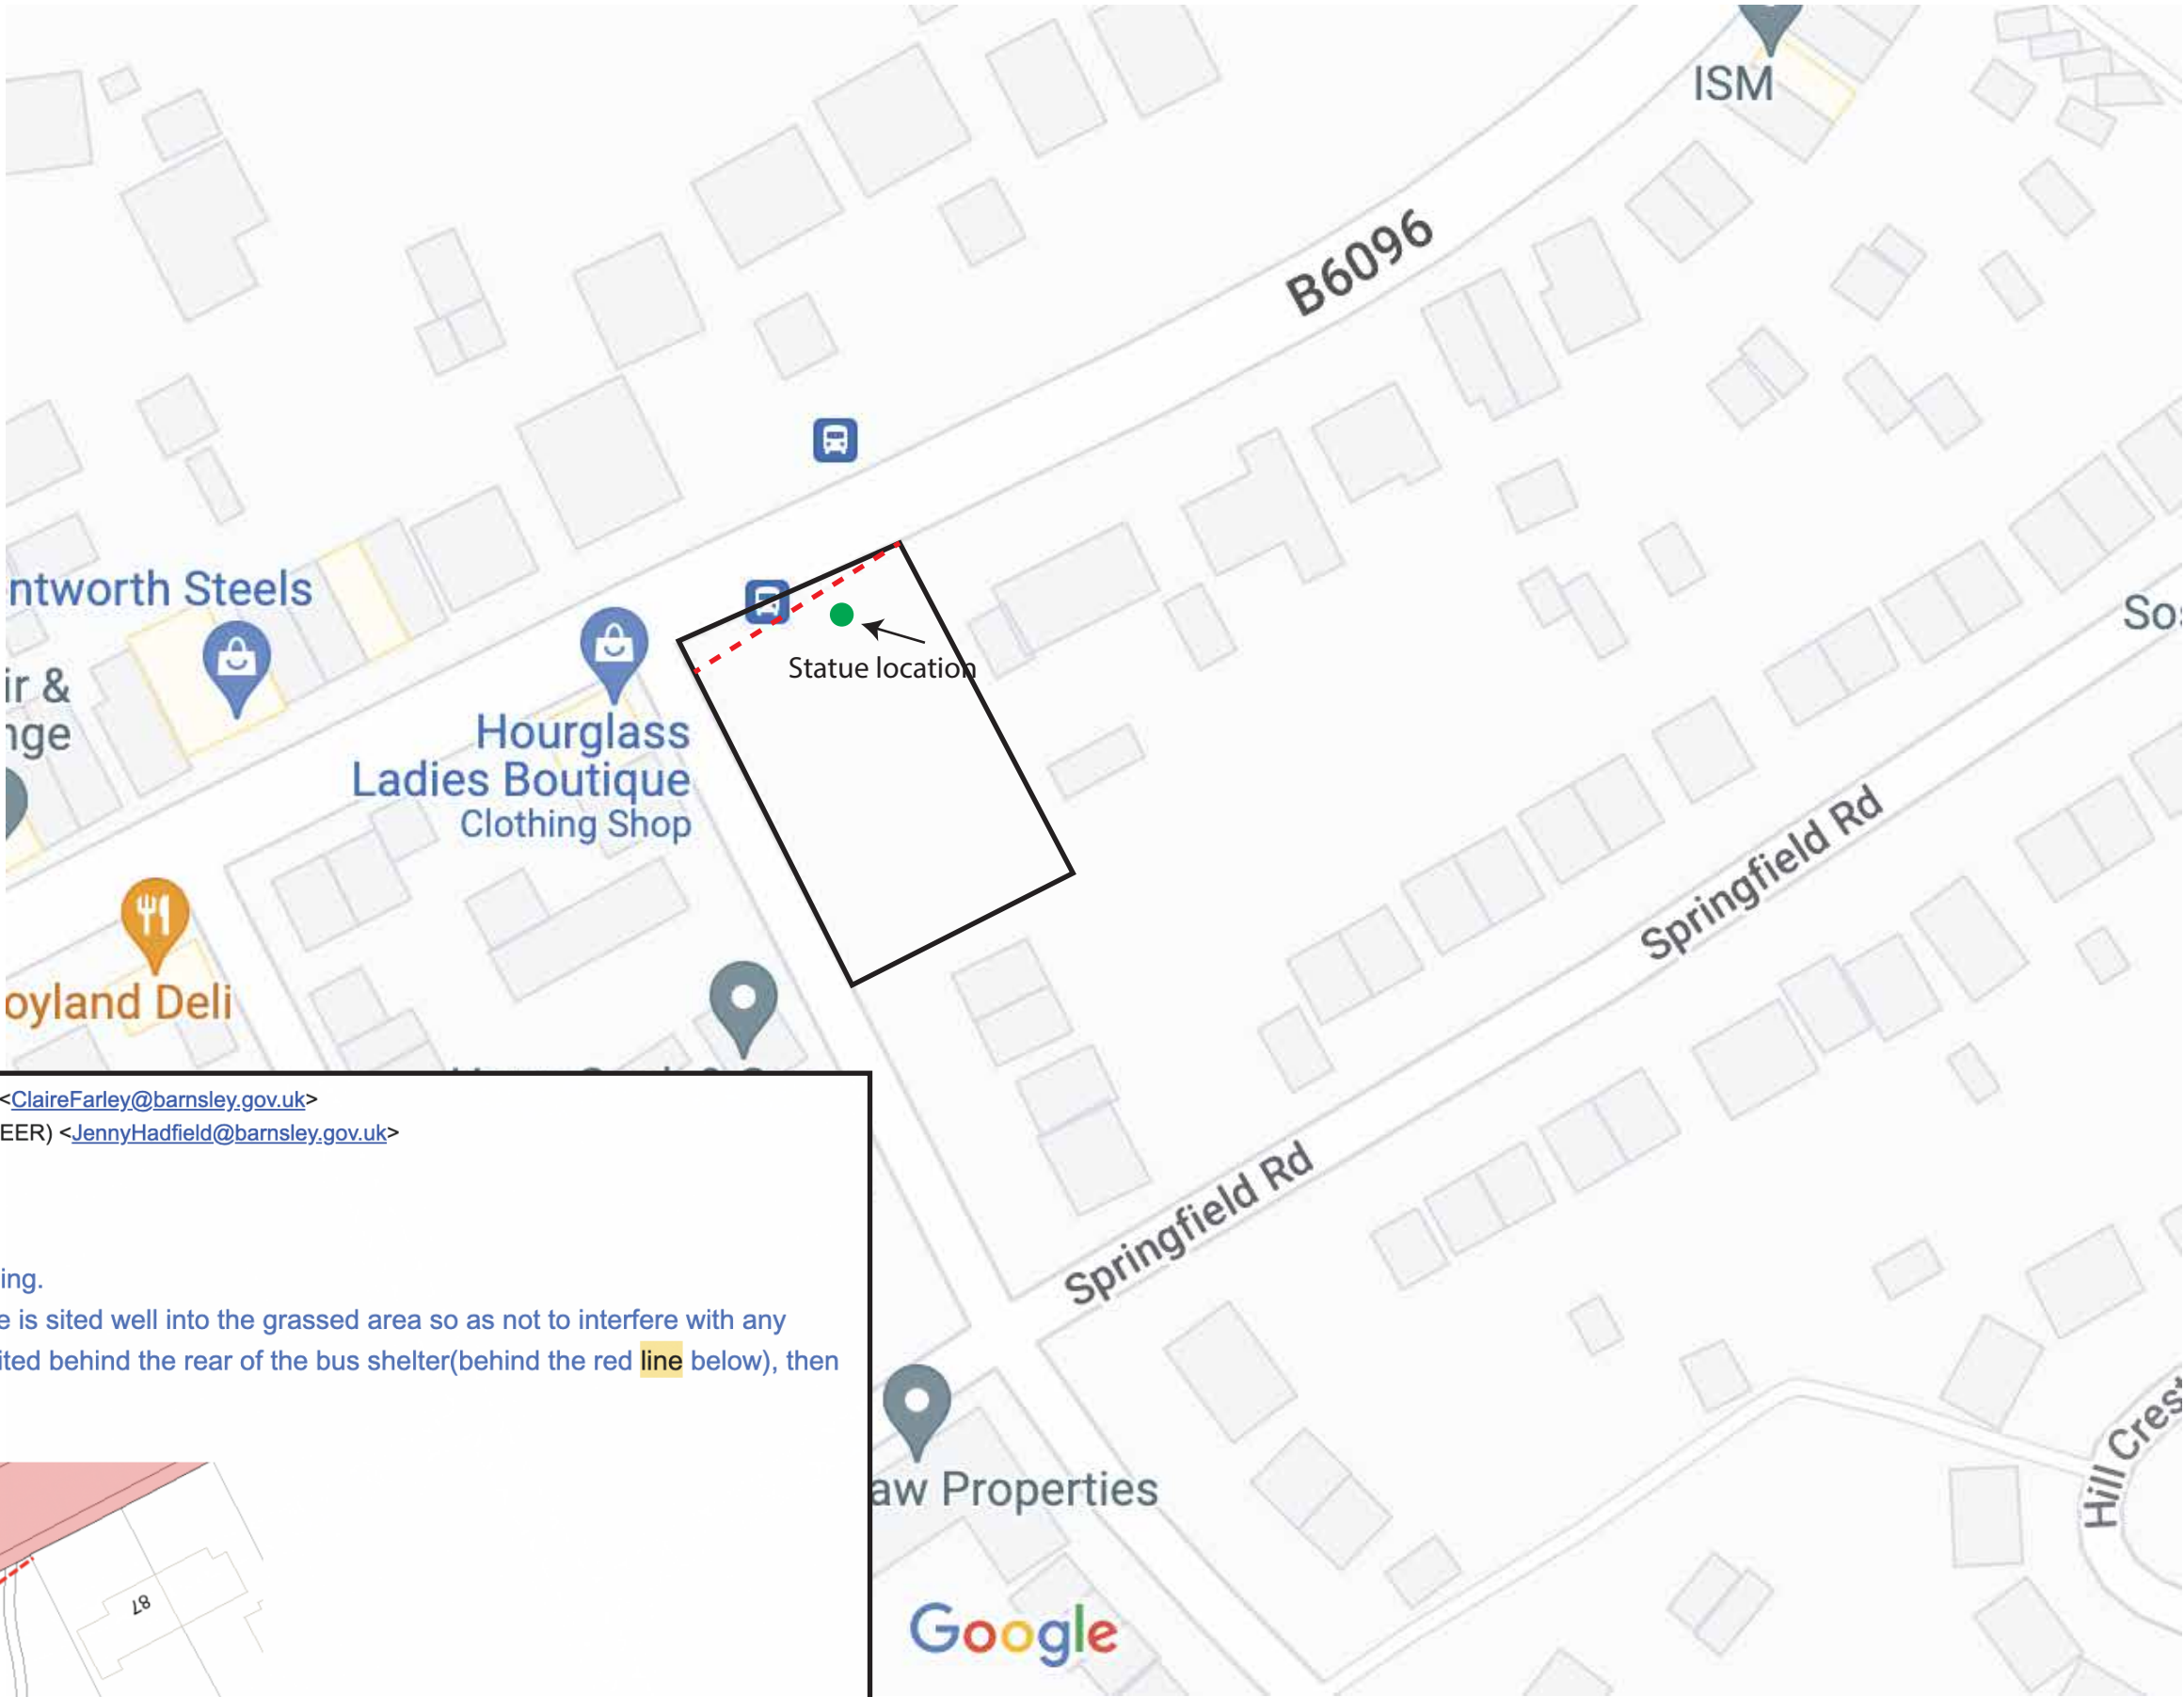

Location:

This image illustrates scale and how people can engage with the sculpture on a daily basis.

Below:
Conversation with BMBC
concerning placement and
installation. I can confirm the
statue will be set back behind
the red line.

To: Farley , **Claire** (PROJECT OFFICER) <ClaireFarley@barnsley.gov.uk>

Subject: FW: Public art in Hoyland

Hi **Claire**
Apologies for the delay in responding.
Please could we ask that the figure is sited well into the grassed area so as not to interfere with any junction **visibility**. So long as it is sited behind the rear of the bus shelter(behind the red **line** below), then this should be fine.
Kindest Regards

HOYLAND C
