5. Pre-application Advice

Has assistance or prior advice been sought from the local authority about this application? (•) Yes ( ) No

If Yes, please complete the following information about the advice you were given (this will help the authority to deal with this application more efficiently):

Officer name:

Title: | First name: MATTHEW | Surname: SMITH

Reference: PRE-APP

Date (DD/MM/YYYY): 28/03/2014 (Must be pre-application submission)

Details of the pre-application advice received:

In July 2010 planning permission was granted for 10 dwellings on the site. This permission has lapsed, but the Unitary Development Plan allocation for this site, housing proposal, still remains the same. It does not appear that the character of the site has changed since 2010 and the immediate locality is still predominantly residential. Based on these factors, the principle of residential development at the site would still be considered acceptable.
In your e-mail you state that you are looking for an outline approval for 4 plots and a full approval for 5 plots. Would a full application for 9 plots not be more straightforward and easier to design?
Notwithstanding the issue of the types of application(s) to be submitted, the scheme does raise the following issues:
- The site is on a very steep slope and therefore the size and scale of the properties will be an important consideration to ensure they are not over-dominant and still provide adequate protection of neighbouring amenities.
- Issues were raised on the previous application about how surface drainage, particularly from the highway, would be dealt with. This would be more of an issue as Core Strategy Policy CSP 4 would require development on greenfield sites to maintain or reduce existing run-off rates. This should be clarified as part of any submission.
- In the previous application a footpath connection was provided between New Road and the plantains. This does not appear on your submitted plan and I would recommend consideration is given to it being part of any proposal.
- It is unclear from the plans as to how the parking area to 198 New Road is accessed. Would it be by the new access road or would it be via the existing road to the east of this dwelling. I presume it is currently by the existing access road but the inclusion of this area and part of Number 198's garden area in the blue edge is confusing.
This advice is the opinion of the officer only based on the information submitted and is given without prejudice towards the determination of any subsequent planning application.

6. Pedestrian and Vehicle Access, Roads and Rights of Way

Is a new or altered vehicle access proposed to or from the public highway? (•) Yes ( ) No

Is a new or altered pedestrian access proposed to or from the public highway? (•) Yes ( ) No
