SURVEY NOTES:
 The survey is fitted to OSGB36 National Grid and Level Datum using RTK GPS, with OSGB15 Mode Transformation and has been drawn at a scale factor of 1.000.
 Due to the scale factor any setting out or design works should strictly use the control co-ordinates as shown on the drawing.
 If manhole invert levels / basic drainage information is shown on this drawing, this will have been surveyed from observation only.
 If any drainage becomes critical to design we advise that a full utility survey is carried out to verify any drainage information shown on this drawing.
