YOUR COMMENTS ON THE CASE

i would like to raise my objections again to this planning application with the points i raised before ,i live on shaw lane and have done so for 40years ,this road is really busy and dangerous at all times the road is too narrow ,their are no foot paths on one side off shaw lane bad bends the proposed house will bring more air pollution volumes of traffic noise ect .the field is a know flood plain .carlton is a small village with no amenitys to accommodate another 215 homes we have one shop no doctors chemist ect the two schools are full so wear are the children going to go ,their is a canal to the top of the field with loads of wildlife that will be impacted by building we have water voles frogs loads of birds which support the carlton marsh which is protected .also we have drains on shaw lane that are not connected to the water system which the council nor yorkshire water will repair due to the cost so this will cause server problems with surface water and sewerage which at the moment yorkshire water are having to come twice a week to empty !! we do not need more houses we cannot accommodate more houses the road cannot take anymore traffic and polution the schools cannot take any more children ,and the safty of people walking or ridng with more traffic is not being taken into consideration we have already had deaths on this road we do not want anymore
