

The diagram illustrates a building facade with four distinct elevations. The central section features a gabled roof, while the side sections have flat roofs. Arrows point towards the building from each direction, labeled as follows:

- North East Elevation:** Indicated by an arrow pointing from the left towards the building.
- North West Elevation:** Indicated by an arrow pointing from the bottom towards the building.
- South East Elevation:** Indicated by an arrow pointing from the top towards the building.
- South West Elevation:** Indicated by an arrow pointing from the right towards the building.
