The Applicants proposals is designed to match in character and bring an old dwelling to current space standards. Natural sustainable materials will be utilised to match existing.

The design, detailing and material choice will preserve and enhance the appearance of the development and Area.

The proposals Comply with BE15 and BE16 of the UDP as they don't harm the character or appearance of the conservation area. It also complies with CS74.

Policy HE1 of the adopted Local Plan supports proposals which conserve and enhance the significance and setting of the borough's heritage assets.

Policy HE3 requires proposals involving additions or alterations to listed buildings to conserve and where appropriate enhance that building's significance.

Policy D1 requires development to be of a high quality design that is expected to respect, take advantage of and reinforce the distinctive, local character and features of Barnsley.

Paragraph 194 advises that in determining applications, local planning authorities should require an applicant to describe the significance of any heritage assets affected, including any contribution made by their setting. The level of detail should be proportionate to the assets' importance and no more than is sufficient to understand the potential impact of the proposal on their significance.

Paragraph 199 states that when considering the impact of a proposed development on the significance of a designated heritage asset, great weight should be given to the asset's conservation. The more important the asset, the greater the weight should be. Significance can be harmed or lost through alteration or destruction of the heritage asset or development within its setting.
