Dear Sir or Madam

ELECTRICITY ACTS 1989 SECTION 37
TOWN AND COUNTRY PLANNING GENERAL DEVELOPMENT ORDER 1988
TOWN AND COUNTRY PLANNING GENERAL DEVELOPMENT [AMENDMENT NO 2] ORDER 1990
Replace existing extra high voltage overhead line at **Barugh to Elmhurst Lane, South Yorkshire**
Project number **YC14183**, map reference: 431098,407811

We propose to undertake the works as shown on the attached plan numbered CDG1957 that are considered exempt from the Electricity Act 1989. These works involve the reconductoring of the existing extra high voltage overhead line from our substation at Barugh to our existing pole position off Whaley Road at this location.

The line has been sited in accordance with principles that reflect our obligations under the Electricity Act 1989. These principles require us to provide an economic system of electricity supply but also to have regard to the desirability of preserving and where appropriate mitigating the effect on the countryside and features of special interest.

It is not necessary in these circumstances to obtain the consent of the Secretary of State for Business, Energy & Industrial Strategy for the replacement of the overhead line. However, if you wish to comment on our proposals please respond within 3 weeks of receipt of this letter.

Yours faithfully

Craig Dixon-Goode
Wayleave Officer
