Landscaping Statement

1.1 There is minimal landscaping required as the main extension to rooms 033 and 038 is to an existing tarmac area. The tarmac is to be re-laid to falls away from the building. The extension to room 053 is located on part of an embankment giving access to the playing fields. This does not affect the playing areas. The changes to this area will be regarded and re-turfed. A flower bed adjacent to this area will also be regarded and part will be paved and the remainder re planted. Details of the works are shown on Drawing 1428-PL-05 Proposed Floor Plans.
