

Intended use of the Workshop

Hi Tom

Please see below my intended use of the work shop. If this needs amending in any way please feel free to do so.

I am approaching retirement, and have always been interested in carpentry but work and family commitments prevented me pursuing this interest, my intension with a hobby work shop is to finally follow this interest as a retirement hobby along with my wife's hobby of fruit and vegetable gardening.

The work shop will also be used for the safe and secure storing of domestic items and garden equipment.

Regards

Wayne
