20th January, 2014 .

Dear Mr Northern

Application Number: 2013/1383

**Conversion of integral garage into bedroom and erection of a double garage
5 High Street, Thurnscoe, Rotherham S63 0SU**

I enclose three copies of an amended plan for the above application showing an amended position for the proposed double garage.

This amendment has been necessary as Yorkshire Water have refused permission to allow me to "build over" the two public sewers crossing the site, for the reasons shown on the attached letter from them dated 13th January, 2014.

I do not consider that the diversion of the sewer is an option due to the excessive costs involved and the resultant reduction in the performance of the sewers, due to slackened gradients and flow restrictions due to bends in the pipework. This means that the relocation of the garage is the only viable option.

The size of the double garage will remain the same, and so I trust this plan can be regarded as an amendment to my existing application, which has not yet been determined

Yours Sincerely

A handwritten signature in black ink, appearing to read 'N Stones'.
