

## Site Selection Process

Alternative sites considered and not chosen (not required for upgrades/alterations to existing sites including redevelopment or replacement of an existing site to facilitate an upgrade or sharing with another operator).

| Site Name and address                 | National Grid Reference                   | Reason for not choosing                                                                                                                       |
|---------------------------------------|-------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------|
| Arqiva 88466 Huddersfield Church West | 53.594 -183948                            | No space for additional antennae                                                                                                              |
| Arqiva Crossland Heath Golf Club      | 53.62497640560711, -<br>1.832497181062281 | Space is only available at 12m and as such is unsuitable for our needs.<br><br>Premises covered make site not economically viable.            |
| WIG Hollinghurst farm, Wakefield      | 53.647546 -<br>1.562024                   | Restricted height / lease issues – Site rejected by WIG (beyond our control)                                                                  |
| WIG Highfields Farm, Wakefield        | 53.613969 -<br>1.484691                   | Restricted height / lease issues – Site rejected by WIG (beyond our control)                                                                  |
| Yorkshire Water Askern DN6 OPP        | 53.615607 -<br>1.154394                   | Access refused by Yorkshire water despite several attempts at negotiation.                                                                    |
| Yorkshire Water Goldthorpe S63 9JF    | 53.536335 -<br>1.295633                   | Access refused by Yorkshire water despite several attempts at negotiation.                                                                    |
| Yorkshire Water Potter Hill S35 4QB   | 53.470141, -<br>1.502770                  | Access refused by Yorkshire water despite several attempts at negotiation.                                                                    |
| Kennels Farm Airwave Tower            | SE 42014 12452                            | Not sufficient height available, mast not sufficient for wind loading of equipment.<br><br>Premises covered make site not economically viable |

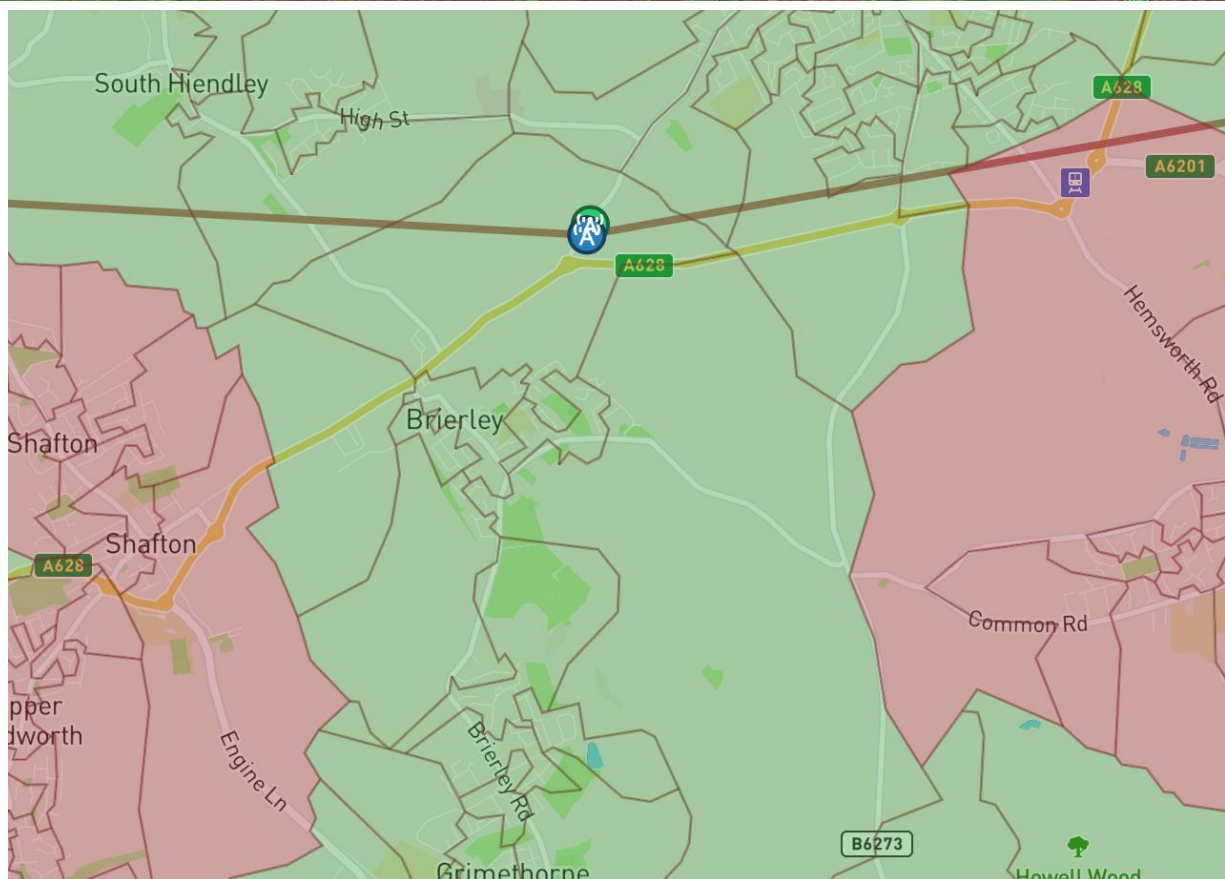

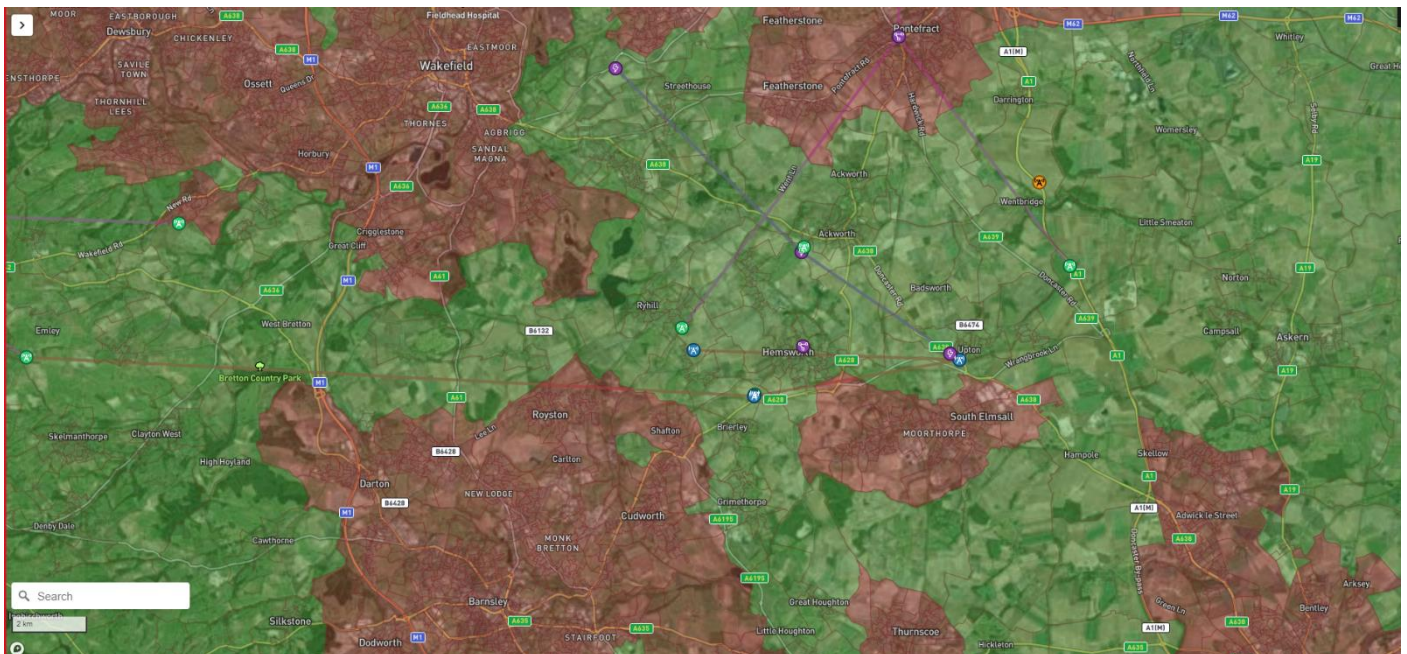

|                          |                          |                                                                                                                                                        |
|--------------------------|--------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------|
| Havercroft Airwave Tower | SE 39479 13850           | Not sufficient height available,<br>mast not sufficient for wind<br>loading of equipment.<br><br>Premises covered make site<br>not economically viable |
| Kennels farm Mast 1      | SE 41683 12235           | Landowner not happy for<br>mast to be located at this<br>point.                                                                                        |
| Warmfield Common         | 53.681771, -<br>1.430476 | Landowner not receptive to<br>our approaches. Could not<br>progress with site or<br>agreement.                                                         |

Mapping to show unsuitable locations in red and Kennels Farm which is yellow.

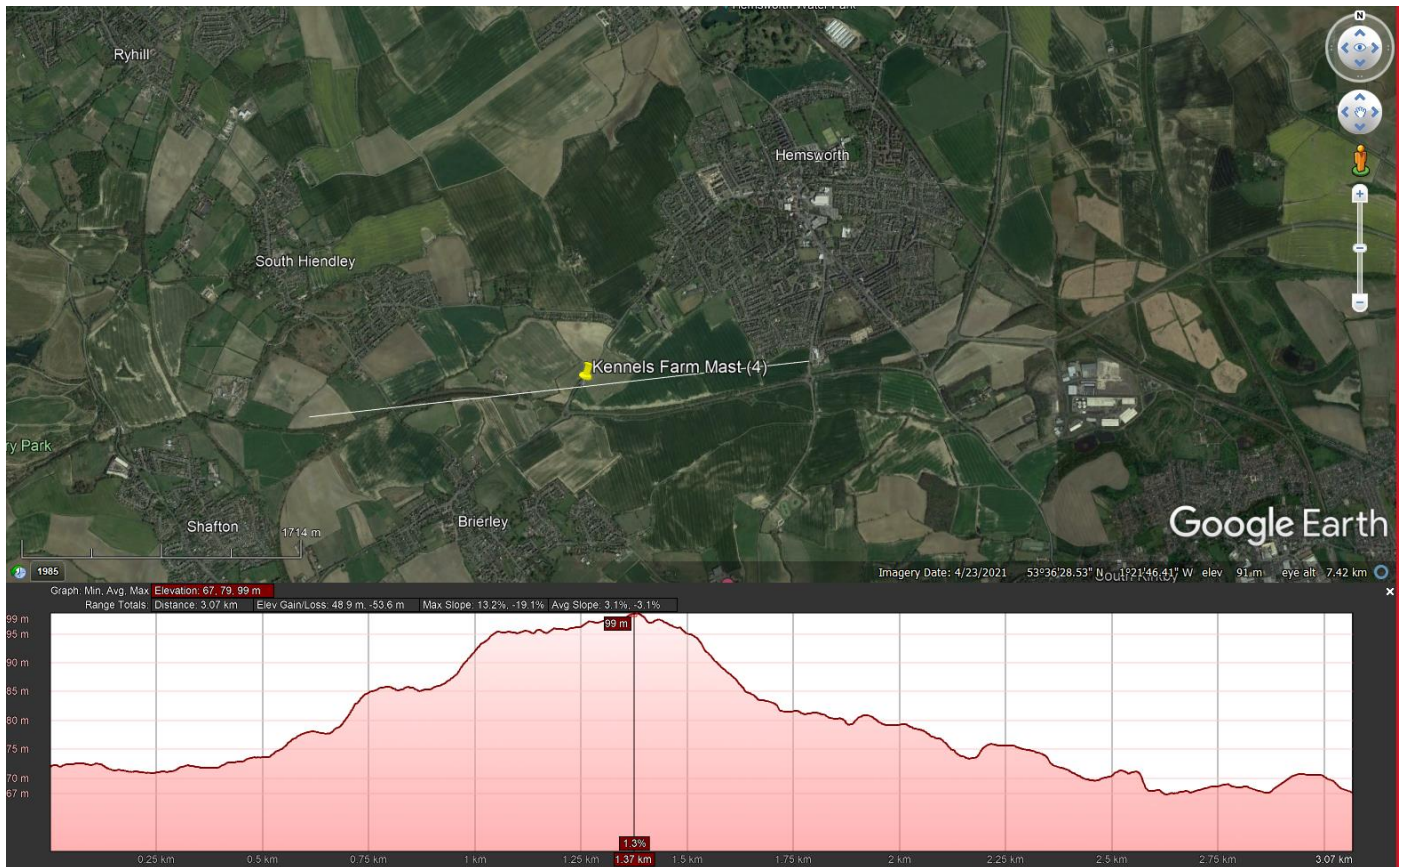

Below map shows the exclusion zones which we cannot broadcast from under Ofcom regulations which can be found here [https://www.ofcom.org.uk/data/assets/pdf\\_file/0033/157884/enabling-wireless-innovation-through-local-licensing.pdf](https://www.ofcom.org.uk/data/assets/pdf_file/0033/157884/enabling-wireless-innovation-through-local-licensing.pdf)

As can be seen below and in the image after this one the location of the mast at Kennels Farm is equidistant between two restricted zones.

Below map shows the lay of the land and elevation profile looking East to West. As can be seen we need the highest point and that is what is provided at the Kennels Farm site.
