

GRANT OF PLANNING PERMISSION

TOWN AND COUNTRY PLANNING ACT 1990

APPLICATION NO. 2026/0357

To Fox Architecture and Design
Fox Cottage
Whitley Road
Whitley
Dewsbury
WF12 0LU
United Kingdom

DESCRIPTION Demolition of existing dwelling and erection of 1no. detached dwelling and garage (Custom/self build)

LOCATION Chevara, 179 Sackup Lane, Darton, Barnsley, S75 5AU

Permission is **granted** for the proposals which were the subject of the Application and Plans registered by the Council on 09/06/2026 and described above.

The approval is subject on compliance with the following conditions:

- 1 The development hereby permitted shall be begun before the expiration of 3 years from the date of this permission.
Reason: In order to comply with the provision of Section 91 of the Town and Country Planning Act 1990.
- 2 The development hereby approved shall be carried out strictly in accordance with the plans and specifications as approved unless required by any other conditions in this permission:
 - Proposed Site Layout Drawing No 2518/110
 - Proposed Site Elevations Drawing No 2518/118
 - Proposed Roof Plan Drawing No 2518/116
 - Proposed Garage Details Drawing No 2518/119
 - Proposed Ground Floor Plan Drawing No 2518/113
 - Proposed First Floor Plan Drawing No 2518/114
 - Proposed Second Floor Plan Drawing No 2518/115
 - Proposed Elevations 1 Drawing No 2518/111
 - Proposed Elevations 2 Drawing No 2518/112

Reason: In the interests of the visual amenities of the locality and in accordance with Local Plan Policy D1 High Quality Design and Place Making.

- 3 Upon commencement of development details of the proposed external materials shall be submitted to and approved in writing by the Local Planning Authority. The development shall be carried out in accordance with the approved details.

Reason: In the interests of the visual amenities of the locality and in accordance with Local Plan Policy D1 High Quality Design and Place Making.

- 4 No development or other operations being undertaken on site shall take place until the following documents in accordance with British Standard 5837:2012 Trees in relation to design, demolition and construction - Recommendations have been submitted to and approved in writing by the Local Planning Authority:

Tree protective barrier details
Tree protection plan
Arboricultural method statement

The development shall thereafter be carried out in complete accordance with the approved methodologies.

Reason: To ensure the continued well being of the trees in the interests of the amenity of the locality.

- 5 The site shall be developed with separate systems of drainage for foul and surface water on and off site. The separate systems should extend to the points of discharge to be agreed with Yorkshire Water.

Reason: In the interest of satisfactory and sustainable drainage

- 6 No development shall commence (EXCLUDING DEMOLITION) until;
a) a scheme of intrusive investigations has been carried out on site to establish the risks posed to the development by past coal mining activity, and;
b) any remediation works and/or mitigation measures to address land instability arising from coal mining legacy, as may be necessary, have been implemented on site in full in order to ensure that the site is safe and stable for the development proposed.

The intrusive site investigations and remedial works shall be carried out in accordance with authoritative UK guidance.

Reason: in order to establish the exact situation regarding coal mining legacy issues on the site.

- 7 Prior to the occupation of the development, or it being taken into beneficial use, a signed statement or declaration prepared by a suitably competent person confirming that the site is, or has been made, safe and stable for the approved development shall be submitted to the Local Planning Authority for approval in writing. This document shall confirm the methods and findings of the intrusive site investigations and the completion of any remedial works and/or mitigation necessary to address the risks posed by past coal mining activity.

Reason: In the interests of safety and to ensure there are no risks posed to future occupants.

- 8 Notwithstanding the submitted details, before above ground works commence a scheme for biodiversity enhancement, such as the incorporation of permanent bat roosting feature(s), and nesting opportunities for birds, shall be submitted to and agreed in writing with the Local Planning Authority. The approved details thereafter shall be implemented, retained and maintained for their designed purpose in accordance with the approved scheme.
The scheme shall include, but not limited to, the following details:
i. Description, design or specification of the type of feature(s) or measure(s) to be undertaken;
ii. Materials and construction to ensure long lifespan of the feature/measure
iii. A drawing(s) showing the location and where appropriate the elevation of the features or measures to be installed or undertaken.
iv. When the features or measures will be installed within the construction, occupation, or phase of the development.
Reason: In accordance with policy BIO1 of the Local Plan
- 9 The development shall be completed in strict accordance with the recommendations of the consultancy report (Preliminary Roost Appraisal, v1 22 May 2026) (unless varied by a European Protected Species (EPS) licence issued by Natural England). All the recommendations shall be implemented in full.
Reason: In accordance with policy BIO1 of the Local Plan
- 10 Sight lines, having the dimensions 2.4m x 43m, shall be safeguarded at the access junction with Sackup Lane, such that there is no obstruction to visibility at a height exceeding 1m above the nearside channel level of the adjacent highway.
Reason: In the interests of the safety of persons using the access and users of the highway in accordance with Local Plan Policy T4 New Development and Transport Safety.
- 11 The parking facility hereby permitted shall not be brought into use until pedestrian visibility splays of 2m x 2m to the back edge of the footway have been provided at the proposed access. Nothing shall be erected, retained, planted and/or allowed to grow at or above a height of 0.6m to the rear of the footway which would obstruct the visibility splays. The visibility splays shall be maintained free of obstruction at all times thereafter for the lifetime of the development.
Reason: To ensure drivers have clear and unrestricted views of approaching pedestrians when pulling out onto the public highway, in the interest of highway safety and in accordance with Local Plan Policy T4 New Development and Transport Safety
- 12 The parking facilities as indicated on the submitted plan shall be surfaced in a solid bound permeable material (i.e. not loose chippings) and adequate measures shall be so designed into the proposed access to avoid the discharge of surface water from the site on to the highway.
Reason: To ensure adequate provision for the disposal of surface water and to prevent mud/debris from being deposited on the public highway and to prevent the migration of loose material on to the public highway to the detriment of road safety and in accordance with Local Plan Policy T4 New Development and Transport Safety.

- 13 The dwellings hereby approved shall be constructed as a self-build/custom build property, as defined in section 1(A1) of the Self-build and Custom Housebuilding Act 2015. The dwelling shall only be occupied as a self-build/custom build dwelling in accordance with Section 1(A1) of the Self-build and Custom Housebuilding Act 2015 for a period of at least 3 years from date of the first occupation of the dwelling. In the event that the dwelling is not built and occupied for a minimum 3 years as a self- build/custom build property, a biodiversity net gain plan shall be submitted to and approved by the Local Planning Authority. The biodiversity net gain plan shall be implemented in accordance with the approved details.

Reason: In accordance with the Schedule 7A: Biodiversity Net Gain in England of the Town and Country Planning Act 1990.

Informative(s)

Pursuant to article 35 (2) of the Town and Country Planning (Development Management Procedure) Order 2015 (as amended), the Local Planning Authority have, where possible, made a pre-application advice service available, and otherwise actively engaged with the applicant in dealing with the application in a positive and proactive manner.

- 1 Under the Building Act 1984, the Council is required to be notified of any demolition exceeding 50 cubic metres carried out within the Borough. This can be done by contacting us via email at demolition@barnsley.gov.uk or by telephone on 01226 773555.
- 2 The granting of planning permission does not in any way infer that consent of the landowner is given. Therefore, the consent of all relevant landowners is required before proceeding with any development, including that of the Council as landowner.

If it should transpire that the applicant does not own any of the land included in this consent, then it is the responsibility of the applicant to seek all necessary consents and approvals of the landowner.

- 3 The site must be drained by a separate system of foul and surface water drainage with all clean roof and surface water being kept separate from foul water.

Please be aware that the Council monitors construction sites and open land within the vicinity of such sites in an attempt to prevent fly tipping (i.e. unauthorised deposit of waste on land), which is illegal under the Environmental Protection Act 1990. The penalties for fly-tipping can include:

- a fine of up to £50,000 and
- up to six months imprisonment on conviction.

Therefore, if necessary, please ensure that all demolition waste and waste associated with the construction of any development is disposed of via approved methods and that documents are retained to prove this.

Signed:

Dated: 17 July 2026

Garry Hildersley

Head of Planning, Policy & Building Control
Growth & Sustainability Directorate

The grant of this consent does not constitute or imply permission, approval or consent by the Local Authority for any other purpose.

NOTES:-

Appeals to the Secretary of State

If you are aggrieved by the decision of the Council to grant permission for the proposed development subject to conditions then you can appeal to the Secretary of State for the Environment, Transport and Regions under Section 78 of the Town and Country Planning Act. If you want to appeal, then you must do so within six months of the date of this notice, using a form which you can get from The Planning Inspectorate, Room 3/24 Hawk Wing, Temple Quay House, 2 The Square, Temple Quay, Bristol, BS1 6PN.

The Secretary of State can allow a longer period for giving notice of an appeal, but he will not normally be prepared to use this power unless there are special circumstances which excuse the delay in giving notice of appeal. The Secretary of State need not consider an appeal if it seems to him that the Local Planning Authority could not have granted planning permission for the proposed development or could not have granted it without the conditions it imposed, having regard to the statutory requirements, to the provisions of the development order and to any directions giving under the order. In practice, the Secretary of State does not refuse to consider appeals solely because the Local Planning Authority based its decision on a direction given by him.

Purchase Notices

If either the Local Planning Authority or the Secretary of State for the Environment, Transport and Regions refuses permission to develop land or grants it subject to conditions, the owner may claim that he can neither put the land to a reasonably beneficial use in its existing state nor can he render the land capable of a reasonably beneficial use by the carrying out of any development which has been or would be permitted. In these circumstances, the owner may serve a purchase notice on the Council in whose area the land is situated. This notice will require the Council to purchase his interest in the land in accordance with the provisions of part VI of the Town and Country Planning Act 1990.

Compensation

In certain circumstances compensation may be claimed from the Local Planning Authority if permission is refused or granted subject to conditions by the Secretary of State on appeal or on reference to the application to him. These circumstances are set out in Sections 114 and related provisions of the Town and Country Planning Act 1990.

STATUTORY BIODIVERSITY NET GAIN CONDITION

DEEMED CONDITION

(As required Schedule 7a of the Town and Country Planning Act 1990 (as amended) and inserted by the Environment Act 2021)

Development may not be begun unless:

1. A Biodiversity Gain Plan has been submitted to the planning authority; and
2. The Local Planning Authority has approved the plan.

The Biodiversity Gain Plan must include:

- a) information about the steps taken or to be taken to minimise the adverse effect of the development on the biodiversity of the onsite habitat and any other habitat;
- b) the pre-development biodiversity value of the onsite habitat;
- c) the post-development biodiversity value of the onsite habitat;
- d) any registered offsite biodiversity gain allocated to the development and the biodiversity and the biodiversity value of that gain in relation to the development;
- e) any biodiversity credits purchased for the development; and
- f) any such other matters as the Secretary of State may by regulations specify.

In addition, under Articles 37C(2) and 37C(4) of The Town and Country Planning (Development Management Procedure) (England) Order 2015, the following specified matters are required, where development is not to proceed in phases:

- g) name and address of the person completing the Plan, and (if different) the person submitting the Plan;
- h) a description of the development and planning permission reference number (to which the plan relates);
- i) the [relevant date](#), for the purposes of calculating the pre-development biodiversity value of onsite habitats and if proposing an earlier date, the reasons for using this earlier date;
- j) [the completed biodiversity metric calculation tool\(s\)](#), stating the publication date of the tool(s), and showing the calculation of the pre-development onsite value on the [relevant date](#), and post-development biodiversity value;
- k) a description of arrangements for maintenance and monitoring of habitat enhancement to which paragraph 9(3) of Schedule 7A to the 1990 Act applies (habitat enhancement which must be maintained for at least 30 years after the development is completed);
- l) (except for onsite irreplaceable habitats) a description of how the biodiversity gain hierarchy will be followed and where to the extent any actions (in order of priority) in that hierarchy are not followed and the reason for that;
- m) pre-development and post-development plans showing the location of onsite habitat (including any irreplaceable habitat) on the [relevant date](#), and drawn to an identified scale and showing the direction of North;
- n) a description of any [irreplaceable habitat](#) on the land to which the plan relates which exist on the [relevant date](#), and any part of the development for which planning permission is granted where the onsite habitat of that part is irreplaceable habitat arrangements for compensation for any impact the development has on the biodiversity of the irreplaceable habitat; and
- o) if [habitat degradation](#) has taken place:
 - i. a statement to this effect,
 - ii. the date immediately before the degradation activity,
 - iii. the completed biodiversity tool showing the calculation of the biodiversity value of the onsite habitat on that date, and
 - iv. any available supporting evidence for the value.

INFORMATIVE 1

When calculating the post-development biodiversity value of a habitat, the Local Planning Authority can only take into account an increase in biodiversity value post-development where it is satisfied that the habitat creation or enhancements delivering the increase will be maintained for at least 30 years after the development is completed. This must be secured either by a planning condition, planning obligation, or conservation covenant

INFORMATIVE 2

The General Biodiversity Gain Condition has a separate legal basis in contrast to other planning conditions and will apply to all planning permissions, unless exempt. The General Biodiversity Gain Condition will therefore not appear on the decision notice along with the list of planning conditions imposed on the application, rather it will be referenced separately.

The General Biodiversity Gain Condition cannot be varied or removed by an application under section 73 of the Town and Country Planning Act. It also cannot be discharged as part of the grant of planning permission.

INFORMATIVE 3

A Biodiversity Net Gain Template can be found here:

<https://www.gov.uk/government/publications/biodiversity-gain-plan>

INFORMATIVE 4

The statutory deemed condition above is relevant to all major applications submitted since 12th February 2024 and to all non-major applications submitted after 2nd April 2024, unless exempt.

The onus is on the applicant/agent to notify the Local Planning Authority at developmentmanagement@barnsley.gov.uk if the application was exempt and provide the reasons for the exemption. Exemptions can be found at this link <https://www.gov.uk/guidance/biodiversity-net-gain-exempt-developments>
