4. Pre-application Advice

Has assistance or prior advice been sought from the local authority about this application? (●) Yes ( ) No

If Yes, please complete the following information about the advice you were given (this will help the authority to deal with this application more efficiently):

Officer name:

Title: Mr First name: Steven Surname: Kirkham

Reference:

Date (DD/MM/YYYY): 09/02/2015 (Must be pre-application submission)

Details of the pre-application advice received:

The following comments were received;"Firstly there would be no objection in principle to the proposals, The Authority recognises the importance of good telecommunication infrastructure and would be supportive to proposals that would improve local network coverage/service. We must however, strive to ensure that new installations are located so as to have the least environmental impact.
In terms of the site selection process the mast would benefit from screening from trees and structures within the bakery site. However, it may have the potential to look rather prominent owing to its location in relation to the sites entrance. I would query why a roof mounted structure has not been considered as this would allow the associated apparatus to be installed in a more discreet manner, alternatively a location which is closer to the building would also be preferable (as suggested on the attached).
I would be grateful if come consideration could be given to these comments prior to submitting a formal application".
A response was sent on the 10.02.15 detailing that the location had been chosen due to coverage restraints. A copy is included with this application.
