3. Description of the Proposal

Please describe the proposed development including any change of use:

The proposed development is a new access road into a field and woodland area at the rear of Carlecotes Hall from Brook Hill Lane, a C-status road. Currently we have no vehicular access to this area apart from via the farmer next door who allows it through his field. Obviously, this is entirely at his discretion and could be revoked at any time. There is no access from the front our property as the hall and church, both of which are Grade II listed. Any access would also destroy sections of a historic Ha Ha wall around the entire front area.

The material used will be graded, leveled and compacted to a depth suitable for vehicles, combined with a consolidating surface to prevent the material being carried away.
