

NORTH EAST

NORTH WEST

NB: The Contractor must verify all specified items with client and local authority before purchase. The contractor must be satisfied with all details and practicalities on site before commencing construction / works.

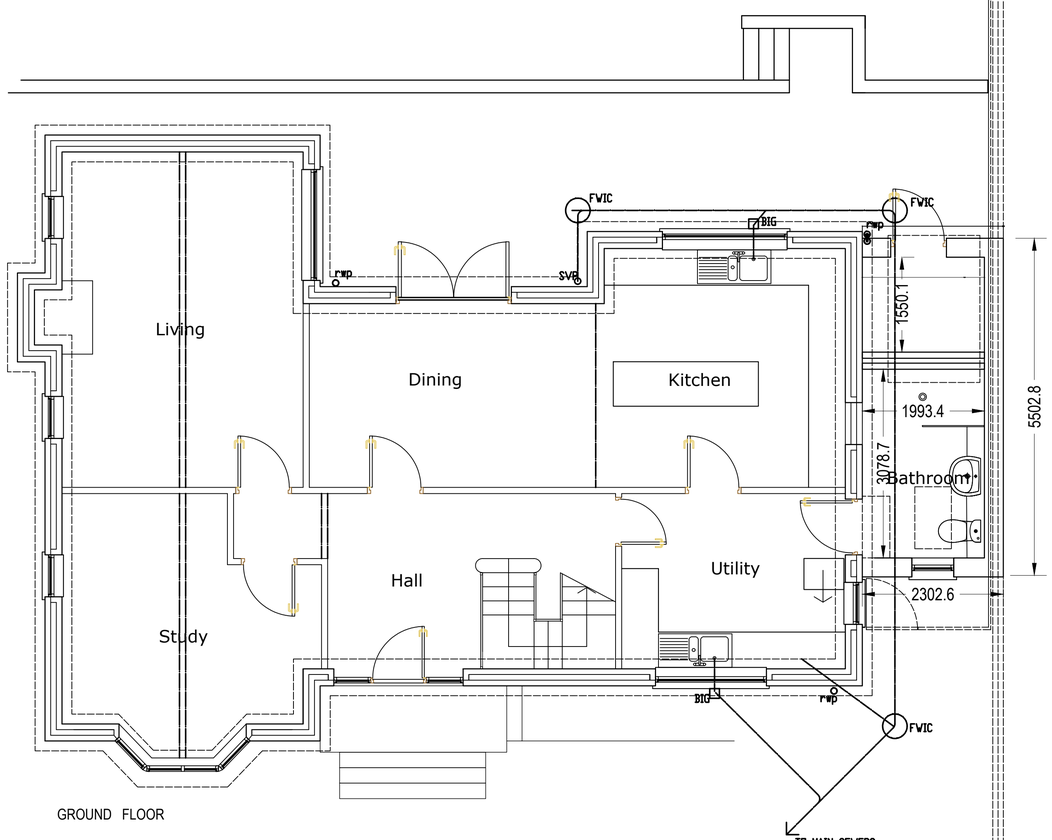

The contractor must check and verify all building and site dimensions, all sewer invert levels and road levels at connection points prior to start of works. Any discrepancies found on site must be notified to the Architect prior to works commencing.

This drawing must be read in conjunction with and checked against any structural or specialist drawings / details. (ie. from Structural Engineer)

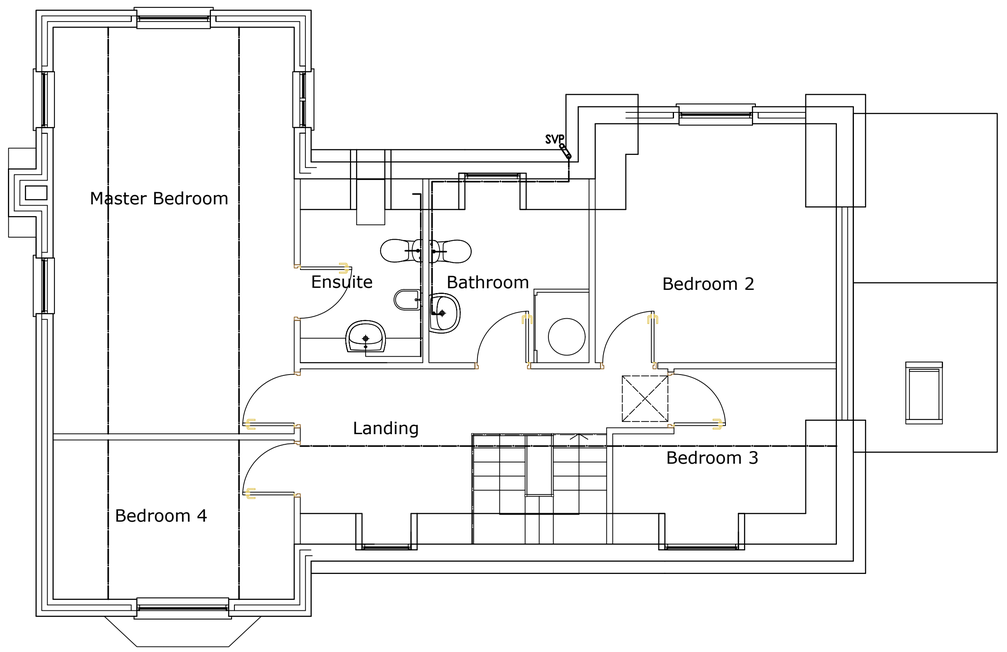

The contractor is to carry out the works in compliance with the current Building Regulations and N.H.B.C requirements where they apply.
