Details of the pre-application advice received

I have consulted my colleagues in various departments who have responded with the following:

Biodiversity Officer

I offer the following comments with respect to biodiversity issues:

•I recall that many of the building at Cannon Hall were the subject of bat surveys ahead of development/ refurbishment proposals being put forwards under the Parks for People initiative. The proposal buildings were probably included within that suite and I would defer to the survey(s) findings which the Museums Service have.

•If a planning application comes forward regarding the proposal buildings then the existing bat surveys should be submitted in support. If there was no bat roost potential at all then no further reports are required. However if the Preliminary Roost Feature survey did find potential then the bat activity surveys will need repeating and reporting upon as the findings only remain valid for 2 years (for surveys relating to animal species).

Conservation Officer

Absolutely no objections from me. I assume this would require change of use and possibly LBC if the new use to facilitate required physical changes. Even so there a well established precedent so I wouldn't see any of this as an issue as I've been involved with fabric changes to this building in the past.

Pollution Control

This development is unlikely to have an adverse impact on health and the quality of life of those living and/or working in the locality

Highways

No comments received – however given the location of the unit and the extensive parking facilities within the vicinity; it is not considered that this would pose a major concern

24. Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff
(b) an elected member
(c) related to a member of staff
(d) related to an elected member

It is an important principle of decision-making that the process is open and transparent. ☒ Yes ☐ No

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

Do any of the above statements apply?

If yes, please provide details of their name, role, and how they are related:
