Thank you for taking the time to view the draft proposals ahead of our residents' consultation event on Wednesday 18th June, at Barnsley College's Belle Vue House on Cockerham Lane.

Background

Barnsley College has made substantial improvements to their existing facilities, with a key part of the plan which has involved the centralisation of the College departments around the Old Mill Lane site within Barnsley Town Centre. As a result, the Carrington Ave and Belle Vue sites will become surplus to requirements.

Proposals for Carrington and Belle Vue

It is intended that the site at Carrington Ave will be developed fully for housing. On the Belle Vue site, the College would like to convert the existing building to flats and create additional housing to the east of the house. As part of a compensation package for the loss of the playing fields at Carrington, two mini football pitches for junior players (under 10's) are proposed on land adjoining the new sports hall at the College's main Honeywell Campus.

You will find on this page draft plans showing how the Carrington Avenue site could be developed for housing, as well as floor plans illustrating a possible layout for the conversion of Belle Vue House into flats. Proposals for the development of the rest of the Belle Vue site are currently being drawn up and will be available soon on line.
