

GRANT OF PLANNING PERMISSION

TOWN AND COUNTRY PLANNING ACT 1990

APPLICATION NO. 2024/0488

To Arup
12 Wellington Place
Leeds
West Yorkshire
LS1 4AP

DESCRIPTION Installation of Ferric Dosing Kiosk
LOCATION Ingbirchworth Sewage Works, Huddersfield Road, Ingbirchworth, Barnsley, S36 7GG

Permission is **granted** for the proposals which were the subject of the Application and Plans registered by the Council on 14/06/2024 and described above.

The approval is subject on compliance with the following conditions:

- 1 The development hereby permitted shall be begun before the expiration of 3 years from the date of this permission.
Reason: In order to comply with the provision of Section 91 of the Town and Country Planning Act 1990.
- 2 The development granted by this notice must not begin unless:
 - (a) a Biodiversity Gain Plan has been submitted to the planning authority, and
 - (b) the planning authority has approved the plan, or
 - (c) the development is exempt from the biodiversity gain condition

This permission will require the submission and approval of a Biodiversity Gain Plan before development is begun.

Further information about the BNG status of this application and how to comply with this statutory condition are set out within the informatives.

Reason: To ensure the development delivers a biodiversity net gain on site in accordance with Schedule 7A of the Town and Country Planning Act 1990.

- 3 A Habitat Management and Monitoring Plan (HMMP) completed by a qualified ecologist and detailing management to be carried out for a minimum period of 30 years from the date of implementation of an approved biodiversity enhancement scheme will be submitted to and approved by the Local Planning Authority prior to the commencement of the development, unless otherwise agreed. The HMMP should follow the template HMMP provided by Natural England and include information on the following;

- Project information, funding and evidence of legal agreements securing the management and monitoring of the approved biodiversity enhancements
- Summary of Habitat Proposal and Plans, site boundary map, site context map
- Phasing Strategy - if relevant
- Roles & Responsibilities
- Land use summary, site context photographs, site baseline and environmental information checklist
- Management plan aims and objectives, design principles informed by baseline information
- Habitat and condition targets, habitat retention and protection measures map
- Creation, enhancement and management targets and prescriptions
- Risk register and remedial measures
- Monitoring plan for reporting to the Council project progress in years 1,3,5,10,15, 20, and 30 from the date of implementation and adaptive management.

Reason: To ensure the development delivers a biodiversity net gain on site in accordance with Schedule 7A of the Town and Country Planning Act 1990.

- 4 The development hereby approved shall be carried out strictly in accordance with the plans (Dwg Nos.ING01-BNE-WWT-WWT-DR-C-1001 Rev. P05 & ING01-BNE-WWT-WWT-DR-C-1003 Rev. P01) and specifications as approved unless required by any other conditions in this permission.

Reason: In the interests of the visual amenities of the locality and in accordance with Local Plan Policy D1 High Quality Design and Place Making.

- 5 The external materials shall match those specified within the application and the plans outlined above.

Reason: In the interests of the visual amenities of the locality and in accordance with Local Plan Policy D1.

Informative(s)

Pursuant to article 35 (2) of the Town and Country Planning (Development Management Procedure) Order 2015 (as amended), the Local Planning Authority have, where possible, made a pre-application advice service available, and otherwise actively engaged with the applicant in dealing with the application in a positive and proactive manner.

- 1 The granting of planning permission does not in any way infer that consent of the landowner is given. Therefore, the consent of all relevant landowners is required before proceeding with any development, including that of the Council as landowner.

If it should transpire that the applicant does not own any of the land included in this consent, then it is the responsibility of the applicant to seek all necessary consents and approvals of the landowner.

- 2 The works should be undertaken outside of the bird nesting season (March-August inclusive). Should this not be possible then a suitably qualified ecologist should undertake a nesting bird check no more than 48 hours prior to the start of works. Should active nests be found, works should cease until the nests are no longer active and the chicks have fledged and the ecologist has deemed the area to be free of nesting birds.
- 3 If a protected species (such as any bat, great crested newt, badger or any nesting bird) is discovered using a feature on site that would be affected by the development or related works all activity which might affect the species at the locality should cease. You should then seek the advice of a suitably qualified and experienced ecologist and consider the need for a licence from Natural England prior to commencing works. This action is necessary to avoid possible prosecution and ensure compliance with the Wildlife & Countryside Act 1981 (as amended), the Conservation of Habitats and Species Regulations 2017 (as amended), the Protection of Badgers Act 1992 and the Wild Mammals Act 1996. This advice note should be passed on to any persons or contractors carrying out the development/works.

4 Biodiversity Net Gain Condition

Paragraph 13 of Schedule 7A to the Town and Country Planning Act 1990 states that planning permission is deemed to have been granted subject to the "biodiversity gain condition" which means development granted by this notice must not begin unless:

- (a) a Biodiversity Gain Plan has been submitted to the planning authority, and
- (b) the planning authority has approved the plan.

This permission will require the submission and approval of a Biodiversity Gain Plan before development is begun.

For guidance on the contents of the Biodiversity Gain Plan that must be submitted and agreed by the Council prior to the commencement of the consented development please see the link: Submit a biodiversity gain plan - GOV.UK (www.gov.uk).

5 Statutory exemptions and transitional arrangements

There are statutory exemptions and transitional arrangements which mean that the biodiversity gain condition does not always apply. These can be found at Paragraph: 003 Reference ID: 74-003-20240214 of the Planning Practice Guidance, which can be found at <https://www.gov.uk/guidance/biodiversity-net-gain>.

Irreplaceable habitat

If the onsite habitat includes irreplaceable habitat (within the meaning of the Biodiversity Gain Requirements (Irreplaceable Habitat) Regulations 2024) there are additional requirements for the content and approval of Biodiversity Gain Plans.

Effect of Section 73(2D) of the 1990 Act

Under Section 73(2D) of the Town and Country Planning Act 1990 (as amended) where -

- (a) a biodiversity gain plan was approved in relation to the previous planning permission ("the earlier biodiversity gain plan"), and
- (b) the conditions subject to which the planning permission is granted:
 - (i) do not affect the post-development value of the onsite habitat as specified in the earlier biodiversity gain plan, and
 - (ii) in the case of planning permission for a development where all or any part of the onsite habitat is irreplaceable habitat within the meaning of regulations made under paragraph 18 of Schedule 7A, do not change the effect of the development on the biodiversity of that onsite habitat (including any arrangements made to compensate for any such effect) as specified in the earlier biodiversity gain plan.

The earlier biodiversity gain plan is regarded as approved for the purposes of paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 (as amended) in relation to the planning permission.

Please be aware that the Council monitors construction sites and open land within the vicinity of such sites in an attempt to prevent fly tipping (i.e. unauthorised deposit of waste on land), which is illegal under the Environmental Protection Act 1990. The penalties for fly-tipping can include:

- a fine of up to £50,000 and
- up to six months imprisonment on conviction.

Therefore, if necessary, please ensure that all demolition waste and waste associated with the construction of any development is disposed of via approved methods and that documents are retained to prove this.

Signed:

Dated: 10 October 2024

A handwritten signature in black ink, consisting of a stylized 'G' and 'H' followed by a horizontal line.

Garry Hildersley

Head of Planning, Policy & Building Control
Growth & Sustainability Directorate

The grant of this consent does not constitute or imply permission, approval or consent by the Local Authority for any other purpose.

NOTES:-

Appeals to the Secretary of State

If you are aggrieved by the decision of the Council to grant permission for the proposed development subject to conditions then you can appeal to the Secretary of State for the Environment, Transport and Regions under Section 78 of the Town and Country Planning Act. If you want to appeal, then you must do so within six months of the date of this notice, using a form which you can get from The Planning Inspectorate, Room 3/24 Hawk Wing, Temple Quay House, 2 The Square, Temple Quay, Bristol, BS1 6PN.

The Secretary of State can allow a longer period for giving notice of an appeal, but he will not normally be prepared to use this power unless there are special circumstances which excuse the delay in giving notice of appeal. The Secretary of State need not consider an appeal if it seems to him that the Local Planning Authority could not have granted planning permission for the proposed development or could not have granted it without the conditions it imposed, having regard to the statutory requirements, to the provisions of the development order and to any directions giving under the order. In practice, the Secretary of State does not refuse to consider appeals solely because the Local Planning Authority based its decision on a direction given by him.

Purchase Notices

If either the Local Planning Authority or the Secretary of State for the Environment, Transport and Regions refuses permission to develop land or grants it subject to conditions, the owner may claim that he can neither put the land to a reasonably beneficial use in its existing state nor can he render the land capable of a reasonably beneficial use by the carrying out of any development which has been or would be permitted. In these circumstances, the owner may serve a purchase notice on the Council in whose area the land is situated. This notice will require the Council to purchase his interest in the land in accordance with the provisions of part VI of the Town and Country Planning Act 1990.

Compensation

In certain circumstances compensation may be claimed from the Local Planning Authority if permission is refused or granted subject to conditions by the Secretary of State on appeal or on reference to the application to him. These circumstances are set out in Sections 114 and related provisions of the Town and Country Planning Act 1990.
