5. Identification of Tree(s) and Description of Works

Please identify the tree(s) and provide a full and clear specification of the works you want to carry out.

You might find it useful to contact an arborist (tree surgeon) for help with defining appropriate work.

Where trees are protected by a Tree Preservation Order, please number them as shown in the First Schedule to the Tree Preservation Order where this is available. You should use the same numbering on your sketch plan (see help for sketch plan requirements).

Please provide the following information:

- Tree species

5. Identification of Tree(s) and Description of Works

- The number used on the sketch plan); and
- A description of the proposed works.

Where trees are protected by a Tree Preservation Order you must also provide:

- Reasons for the work; and where trees are being felled
- Proposals for planting replacement trees (including quantity, species, position and size) or reasons for not wanting to replant.

e.g. Oak (T3) - fell because of excessive shading and low amenity value. Replant with one standard ash in same position.

These works are part of the Refurbishment of the Grade II listed parkland setting at Cannon Hall - Georgian landscape, so some trees are being removed to open up the original vistas and to expose hidden historic features, others are being either felled due to dead or dying, others are dying and being crown reduced to leave as dead wood standing for habitat.

Only the South side of the lakes are covered by a TPO 1 1957 Cawthorne, the rest is registered grade II park and gardens.

T19, 20, 21, 22, 23, 25 - to be removed to enhance the amenity value of the Grade II listed parkland and the setting of the bridge (TPO 1 1957).

T24 is dead wood standing and being left in situ.

G13 (TPO1 1957) and G650 removed as in poor condition, poor amenity value.

T743, T893 T896 are in decline/dying but we intend to reduce the weight in the canopy and leave as dead wood standing.

T758 or T759 one of these is dead and to be removed, not both.

T809 G835 G540 poor condition and being removed to open up access or access to views.

T450, T413 through to T421, T426 through to T428 dead and dying and are to be removed

Just off Barkhouse Lane over mature hedge to be reduced to a manageable height and condition (TPO1 1957 although this is an hedge).

6. Trees - Additional Information

For all trees

A sketch plan clearly showing the position of trees listed in the question 'Identification of Tree(s) and Description of Works' MUST be provided when applying for works to trees covered by a Tree Preservation Order. A sketch plan is also advised when notifying the LPA of works to trees in a conservation area (see guidance notes).

It would also be helpful if you provided details of any advice given on site by an LPA officer.

Please note: If none of the proposed work involves trees covered by a TPO, please answer 'No' to the two questions below

Please indicate whether the reasons for carrying out the proposed works include any of the following. If so, your application MUST be accompanied by the necessary evidence to support your proposals (see guidance notes for further details).
