Archaeological Research Services Ltd

For the attention of Ms L Mepham

17 November 2008

Dear Laura

Re Green Road, Dodworth, Barnsley: archaeological desk-based assessment

Thank you for commissioning us to undertake the assessment in support of Mr Whitworth's application.

I can confirm that we have commenced works on producing the desk-based assessment and should have a draft available within the next three weeks, subject to receiving all third-party data.

We have already accessed information from the Archaeological Data Service, National Monuments Record and English Heritage. Provisionally, it appears that the site will have a low-moderate archaeological potential but we will confirm or revise this view in due course when all relevant data repositories have been accessed and aerial photographic material received.

We will keep you appraised of developments as and when new information is received. Until then, should you require any further information or wish to discuss further, please do not hesitate to contact me.

Yours sincerely,

Simon Johnson, BA; PG. Dip; FRSA; FSA Scot; IHBC; MIFA
Senior Archaeologist
