Dear Mrs Ward.

I have removed the dormer & indicated heights of buildings either side. The floor level of the garage will be set down into the ground in an event.

Visually the front wall will read but the roof at 40° will fade visually and have little impact. Obviously to the rear of the site there are already a range of higher buildings which ~~read~~ read on the skyline above my proposal.

He really needs the space above for storage and the amenity of surrounding houses is not compromised

Regds.

Mc

Amended plan received 13/2/14.
