4 Application for modification or removal of a condition(s) attached to a previous consent

- (a) Describe any condition previously attached to the relevant consent which it is proposed should no longer be attached to the consent, or which should only be attached in a modified form. In the latter case, indicate the proposed modification—

<i>No.</i>	<i>Condition previously attached</i>	<i>Action (modification or removal)</i>	<i>If modification, details of proposed modification</i>
1	The hazardous substances shall not be kept or used other than in accordance with the particulars provided on the application form, nor outside the areas marked for storage of the substances on the plans which formed part of the application	<i>Site management have identified that heating oil used in the offices central heating system is a qualifying substance under section 3 above. The fixed storage tank used to contain heating oil is not shown on the current substance location map.</i>	<i>An amended substance location plan is attached to this application</i>

- (b) Give the reasons why the condition(s) referred to in (a) should not be attached, or should only be attached in a modified form–

No.	Reason
	<i>No change is required to the stated condition.</i>

- (c) Describe any relevant changes in circumstances since the date of the relevant consent–

There have been no relevant changes in circumstances.

5 Additional Information

Give any additional information which you consider to be relevant to the determination of this application–

The updated substance location plan no longer differentiates between pure storage and areas of use. Storage and use areas within buildings have been extended to encompass the whole building rather than specific zones within buildings. These measures provide increased flexibility for storage of consented materials and simplify the plan overall.

Attach in relation to any relevant consent, **a copy of the consent, claim or direction.**

Attach a change of location plan if the application relates to a condition restricting the location of a hazardous substance.

A **"change of location plan"** is a plan of the land to which the application relates, drawn to a scale of not less than 1:2,500 which identifies the location of the hazardous substance at the date of the application, and the proposed location requiring the application.

I/We hereby apply for hazardous substances consent in accordance with this application
