4. Description of the Proposed Development

Please describe the proposed development, including relevant information covering transport and highways impacts of the development; contamination risks on the site; and flooding risks on the site.

Change of the first floor from offices (Use Class B1(a)) to residential (Use Class C3) to form 4 residential units.

The site is located in within the Barnsley Town Centre in a pedestrian zone. The premises have access with access to a number of local amenities and public transport options. The site is in a highly sustainable and accessible location with local bus services which run along Eldon Street, Shambles Street and West Way. There are a number of bus stops located within easy walking/cycling distance to and from the site. The Barnsley Train Station is a 4 minute walk away at 0.2 miles. Given the Town Centre location no parking spaces are available on site to be allocated to the proposed flats. Adequate refuse and recycling bins will also be provided to the rear of the property near the commercial bin store for the ground floor units.

The last use of the first floor of the building was as offices (Use Class B1(a)), with retail uses on the ground floor currently occupied by Greggs and Carphone Warehouse. These uses do not present a contamination risk on the site. The site will not, as a result of the proposed change of use, be contaminated land as described in Part 2A of the Environmental Protection Act 1990 (a). The site is not situated within Flood Zone 2 or Flood Zone 3. The site is not in an area within Flood Zone 1 which has critical drainage problems and the area has not been notified to the Local Planning Authority by the Environment Agency. The continued use of the ground floor as retail units under Use Class A1 would not result in any acoustic issues.

If the building was not in use on 29th May 2013, when was it last in use?

Date (DD/MM/YYYY)

What was the use of the building on 29th May 2013 or the last use before that date?
