For the attention of Mr S. Kirkham

9th December 2008

Dear Sirs

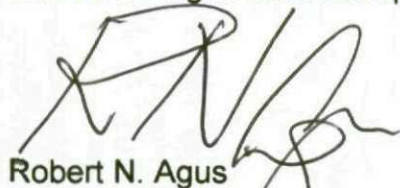

Proposed Basement Flats at 102 & 104 Sackville Street, Barnsley

Following the recent telephone conversation between Mr Kirkham and Robert Agus we have spoken to our Client and clarified the following:

1. It is intended that the existing covered entrance adjacent 102 Sackville Street will be retained as a pedestrian access to both flats. A suitable entry system to allow residents and visitors will be provided to allow access to the rear garden and basement flats.
2. As discussed a light-well will be provided to the rear to improve the general amenity of both basement flats.

We enclose two copies of revised drawing 08-066-04A and we trust this is satisfactory.

Yours faithfully
For and on behalf of
The White Agus Partnership

Robert N. Agus

cc Mr Sharif + drawing.
