Addendum to Design and Access Statement

This is to be read in conjunction with 1.3 of the introduction of the last design and access statement for the 3 number Units

1.3 The proposals which now will incorporate the erection of 2 number two storey buildings; the first being single two storey detached unit which comprises of a workshop with toilet facilities on the ground floor with office and toilet facilities above. The second building will be of a linear shape building consisting of 4 number units with the same characteristics of use as the single 2 storey detached, with regards workshop/office accommodation. The buildings will be cavity constructed with outer leaf in red multi facing brickwork and heads and sills over doors and windows will be dressed with vertical soldier courses. The roof appearance will be dark grey hardrow type tiles of lightweight material construction.
