8. Trees - Reasons For Works

This section only needs to be completed if you are seeking consent to trees under a Tree Preservation Order (TPO)

Please state the reasons for carrying out the proposed works on the tree(s):

The trees on this stretch of roadway are very closely self planted and are going to become even more so as they develop. This is making gardening on our side of the boundary more and more difficult. If the work were to be carried out it would allow the trees on our side of the boundary (i.e. Yellow leaved silver birch, Holly and Black poplar) to develop which would improve the appearance of the road, particularly as the next section of roadway is also heavily planted with more immature ash. Crown lifting the oak would again allow more light to allow better gardening and help develop ~~esta~~ well shaped tree.

Please indicate whether the reasons for carrying out the proposed works include any of the following. If so, your application must be accompanied by the documents specified.

Health or safety of the tree(s) - e.g. it is diseased, fears that it might break or fall: ☐ Yes ☑ No

If Yes, information required - report by a tree professional (e.g. arboriculturist, horticultural adviser).

Alleged subsidence damage: ☐ Yes ☑ No

If Yes, Information required: Full report by an engineer or surveyor, together with one from a tree professional - to include date and description of property damage; sub-soil type and shrinkage potential; location of any roots found and their identification; history of ground and building movement through a distortion survey and/or level or crack monitoring over suitable period; other vegetation in the vicinity and its management since discovery of the damage.

9. Trees - Additional Information

Are you providing additional information in support of your application? ☐ Yes ☐ No
