EXTERNAL WORKS NOTES

This drawing is to be read in conjunction with all other detailed drawings and documents.

- Levels indicated on dwellings are Finished Floor Levels. Part M access to be provided as indicated.
- The contractor is to check the relationship between the as-built centreline of the road and the back of footpath, to verify that levels facilitate compliance with Part M access. Any discrepancy with design information is to be confirmed with the client prior to FFL's being set.
- The exact location and levels of all existing manholes/drainage to be checked prior to site commencement.
- The contractor is responsible for checking position and level of existing utilities prior to commencement.
- Levels indicated on site boundaries are generally inferred and should be checked against proposed levels prior to commencement, with any discrepancies being referred to the client for amendment.
- All Garden Gradients to be a max of 1 in 15.
- For setting out of dwellings/fencelines and roads please refer to the appropriate drawings. No dimensions are to be taken from this drawing.
