

I am writing to you in reference to the proposed residential development for 1760 dwellings on the land East Higham Common Road.

I completely oppose this happening. The land in question is a vibrant area of flora and fauna. The fields are full of horses, bats, numerous birds and birds of prey, rabbits, pheasants etc etc. I myself bought the house opposite for these particularly and regularly walk in the fields. My view will be completely destroyed should this development go up in this beautiful nature spot.

Considering the governments promise to make Britain carbon neutral and to protect wildlife, I find the proposition ridiculous and ultimately counter productive.

My view which I chose to have due to wanting a calmer more relaxed environment to live in will be destroyed, therefore there will be petitions made and shared as I'm more than aware the entire village is divulged in the proposal as will be anyone who who loves nature and open spaces.

Please find some waste land away from the wildlife
