

## PLANNING CONSULTATION RESPONSE

<b>Application No</b>	2025/1067
<b>Proposal</b>	Erection of sub-station
<b>Address</b>	Land off Dearne Valley Parkway, Rockingham Business Park, Hoyland, Barnsley
<b>Date of Consultation Reply</b>	19/12/25
<b>Consultee</b>	Highways DC

### Consultation Assessment and Justification

The location of the substation is within the Rockingham Business Park approved in application no. 2021/0479. Approval for one substation was granted at this time and this scheme would see an additional facility adjacently installed within a purpose-built cordon.

Once the construction work is complete, there will be very few highway implications with the only traffic generation likely to be that to support site operations and general maintenance activities at the facility.

As such, the scheme is acceptable from the perspective of highway safety. No specific conditions are deemed necessary for this application; however, the conditions attached to approval for 2021/0479 should still be followed for the wider site including this new element.
