NOTES

1. This wall chart can be used both as a planning chart and as a record chart.
2. Within 13 monthly columns, continuity from one year to another is ensured.
3. An additional column in October ensures that 'Anti-Freeze' precautions are remembered.
4. For advanced planning, a letter or figure can be written, or a coloured pin inserted, in the appropriate week square.
5. Maintenance days, oil changes, etc, can also be shown in advance by the use of other letters or figures.
6. When the necessary action has been completed, the letter in the week square can be ringed in ink, or the coloured pin removed. The chart should be kept for at least fifteen months from the date last on it or such less time as may be laid down.
