BIODIVERSITY STATEMENT ADDENDUM

PROPOSED EXTENSION TO PLASTIC EXTRUSION FACTORY AT NAYLOR DRAINAGE, CLOUGH GREEN, CAWTHORNE, BARNSLEY, S75 4AD

1. This Addendum has been prepared in light of comments made by the Biodiversity Officer for the extension of the plastic extrusion factory at Naylor Drainage, Clough Green, Cawthorne, Barnsley, S75 4AD.
2. Barnsleys' LPA policy states a proposed development must demonstrate biodiversity measurements. As the proposed development is relatively small and has a No Net Loss of biodiversity the additional measurements required are minimal.
3. Naylors' contribute to biodiversity in Cawthorne in numerous unique ecosystems on site. For the proposed extension Naylors' biodiversity off-setting proposal includes the implementation of bee hives to the north of the site where Naylors' allow a local beekeeper to store them here. The beekeepers bees benefit from the rich variety of plant species on site and as such the honey produced from these hives is truly delicious. The honey can be purchased from Naylors' on site flower-pot shop.
4. Naylors' take great care to preserve and encourage wildlife on their site and endeavour to maximise biodiversity on site.
