Dear Ms Wilson;

Re: 2014/1020- Barnsley Road, Goldthorpe, Erection of foodstore (full) and residential development (outline)

Thank you for your comments in relation to the application referenced above, I would like to take this opportunity to respond to the queries raised.

A revised plan has been attached to this correspondence, showing a 700mm buffer at the rear of the bell mouth and a crossing has been introduced in line with your request. The attached plan demonstrates that a refuse vehicle to BMBC standard dimensions can turn in the area shown to be offered for adoption.

Due to the Aldi operation and the popularity of the brand, typically a store receives 2 no. deliveries a day.

The distribution centre is located less than 0.5 miles from this development, therefore 2 delivery vehicles will never be on site at the same time.

Newspapers and magazines are now sold in store, this has been included to satisfy customer demand, there are no plans for the store to move further away from a bulk weekly shop.

Overall there remains to be no reason why this development should attract a recommendation for refusal on highway or transportation grounds.

If you have any further questions or queries please do not hesitate to call or email.
Yours Sincerely

C Smith
